The files of thirty-four Agents assigned to the Toplev Program who have been recommended by the Domestic Intelligence Division to attend a one-day conference at the Seat of Government on Friday, 7-18-52, in connection with this Program, have been reviewed.

The following Agents scheduled to attend this conference have been involved in no serious Administrative action, averaged more than one hour overtime a day during March, 1952, and there appears to be no reason why they should not be approved for attendance at this conference:

(Memo to Mr. Glavin - continued)

The following two Agents have been involved in disciplinary action of a serious nature in the past. Both of these Agents averaged less than one hour overtime during March, 1952:

SA KENNETH P. PETTIJOHN - Indianapolis Office

This Agent entered on duty 10-7-35, resigned 6-6-45, and was reinstated 3-30-48. He is in Grade GS-13, \$8360 per annum. He served as #1 Man in San Francisco from 4-22-38 to 8-12-38 when he was deleted due to lack of ability. He was designated #1 Man in Indianapolis on 9-28-38, but was deleted 11-17-38 as a result of a letter of censure for failure to relay a message to the Bureau from Inspector Curnea. He served as #1 Man at Baltimore during 1941, but was deleted 11-15-41 on the Director's instructions in view of facetious remarks he had made. He was assigned as #1 Man at Indianapolis on 11-19-42 and as ASAC on 1-19-43 until censured on 10-26-44 and transferred to Pittsburgh for failing to bring certain undesirable personnel conditions to the attention of his SAC. It was also disclosed at that time that he allowed personal ill feelings toward his SAC to interfere with his official duties. Following his reinstatement in 1948 he was censured on 12-29-49 for misplacing his Inspector's Manual and inspection notes. He was commended on 9-29-49 and 3-9-51 for excellent investigative work in cases handled by him. His overtime for March, 1952, averaged forty minutes per day. In explanation for his low overtime, this Agent stated that he had a very serious case of flu and was ill during this period although he did work most of the month.

SA FRED G. COOK - Detroit Office

This Agent entered on duty 12-15-41 and is in Grade GS-12, \$7340 per annum. During March, 1944, his SAC advised that this Agent had violated rules of the Philadelphia Office by departing on a trip from Pottsville, Pennsylvania, to Reading, Pennsylvania, when specific instructions had previously been given by his Supervising Agent that no Agent was to leave the vicinity without the personal permission of the Supervising Agent (SA Cook was absent from the office on the day these instructions were given). He left Pottsville on the evening of 2-28-44, did not say anything about the trip, and although he left a note for his roommate which could be interpreted as official notification of his whereabouts, this was definitely not in conformance with the rules of the Philadelphia Office. In addition, various discrepancies were found in his expense account. Although he left on the evening of 2-28-44 without saying anything about the trip, he charged per diem for the entire day and also charged for car storage on that night which was shown on his expense account. He also drove to his Resident Agency in Reading in a Bureau car for the purpose of obtaining more clothes

(Memo to Mr. Glavin - continued)

and he did not show this travel on a daily report. In view of the above, he was censured, demoted from Grade CAF -10 to Grade CAF-9 and transferred from Philadelphia to Norfolk. He was subsequently restored to Grade CAF-10 on 12-16-44. His record since that time has generally been very satisfactory. He was commended on 6-19-47 and 4-20-49 for his work in connection with his assignments and on 2-3-52 received a meritorious increase in salary to \$7840 per annum in Grade GS-12 in view of his outstanding work in connection with the Toplev Program. During March, 1952, his average overtime was thirty-eight minutes per day. In explanation he advised that during this month, as in other months, he had spent considerable time outside office hours in making spot checks on the residences of subjects in the Toplev Program, handling telephone calls in connection with the Program, and conducting necessary research. The time consumed in this connection was not recorded by him on the office records as overtime. He pointed out that during April, 1952, he averaged more than one hour daily overtime and during the first half of May averaged one hour and fifty-six minutes.

The following Agents have not been subject to serious Administrative action such as would prevent their being approved for attendance at the conference. However, each of these Agents averaged less than one hour overtime during March, 1952:

WILLIAM R. HECKMAN - Chicago Office

This Agent averaged fifty-six minutes per day overtime during March, 1952, and has explained that he did not contribute much overtime during that month because of illness in his family. His record has otherwise been satisfactory and he was approved for assignment to the Toplev Program in the Chicago Office on 4-28-52. He entered on duty 4-14-47 and is in Grade GS-12, \$7040 per annum.

b6
b7c

[redacted] - Cleveland Office

This Agent averaged fifty-four minutes per day overtime during March, 1952, and explained that during that month he was assigned exclusively to the Toplev Program and in preparation for these interviews it was necessary to engage in extensive research pertaining to Communism. He pointed out that much of this research was done at home and at the public library after regular working hours and was not recorded on the office records as overtime. He stated that had this time been included in the overtime calculations his daily average overtime for that month would have exceeded one hour by a considerable margin. His record otherwise has been satisfactory. He is presently in Grade GS-12, \$7440 per annum, and has been a Special Agent since 8-2-43.

(Memo to Mr. Glavin - continued)

b6
b7C- Cleveland Office

This Agent averaged fifty-four minutes per day overtime during March, 1952. In explanation he pointed out that he was assigned exclusively to the Toplev Program and it had been necessary for him to conduct considerable research in connection with this assignment which was done during off-duty hours at his residence and was, therefore, not recorded as official overtime. He also pointed out that during March both he and his wife were ill with influenza and head colds, and although he was on sick leave only one day during this month, it was necessary for him to spend more than an average amount off-duty time recuperating in attempting to prepare himself for the next work day. He pointed out that for the five-month period from January through May, 1952, his average daily overtime was one hour and twenty-nine minutes, and that the month of March was the only month during this period in which he averaged less than one hour a day overtime.

- New Haven Office

This Agent averaged forty-seven minutes per day overtime during March, 1952, and no record can be located at the Seat of Government of the receipt of an explanation from him regarding his March overtime. His record otherwise has been satisfactory. He entered on duty 9-8-41 and is presently in Grade GS-13, \$8360 per annum.

- Cleveland Division

During March, 1952, this Agent averaged forty-eight minutes per day overtime and he explained that this by stating that his assignment to the Toplev Program involved extensive research which had been done at home and on week ends and was not recorded on the office records as official overtime. He stated that if this time spent on research had been recorded as overtime his contribution would have been above the office average. His record otherwise has been satisfactory. He entered on duty 3-9-42 and is in Grade GS-12, \$7640 per annum.

RECOMMENDATIONS OF THE ADMINISTRATIVE DIVISION:

It is recommended that the Agents set out herein be approved to attend a one-day conference at the Seat of Government on 7-18-52 in connection with the Toplev Program, with the following exceptions:

SA Kenneth J. Pettijohn is not being favorably

(Memo to Mr. Glavin - continued)

recommended because of Administrative action taken against him in the past as set forth above.

SA Fred G. Cook is not being favorably recommended because of Administrative action taken against him in 1944 and also because of his low overtime (thirty-eight minutes) during March, 1952.

SAs [] and [] are not being favorably recommended in view of their low overtime in March, 1952, and the lack of a satisfactory explanation in this connection.

It is noted that while SAs William R. Heckman and [] both had less than one hour a day average overtime in March, 1952, they explained that this was due to illness in their families during this period and it is accordingly felt they should be approved for attendance at this conference.

It is noted that the following Agents who are being favorably recommended for attendance at the conference on 7-18-52 are presently due for In-service Training and it is accordingly recommended that they be held over for In-service Training to begin on 7-21-52 following their attendance at this conference on 7-18-52: Ralph C. Vogel.

b6
b7C

[] and []
It is noted that SA Carl N. Freyman, who is being favorably recommended for attendance at this conference, has already been scheduled to attend In-service Training beginning Monday, 7-14-52, and will, therefore, be attending In-service on the date of this conference. SA [] who is also being favorably recommended, began In-Service on 7-7-52 and will also be attending In-Service on the date of the conference.

In the event the above recommendations are approved, appropriate instructions will be sent out by the Domestic Intelligence Division ordering the approved Agents to report for this conference on 7-18-52.

CARL N. FREYMAN
Special Agent
EOD: 2/2/42
GS-13

Agent Freyman has served in the Newark, New York and Chicago Divisions and has had considerable experience in the criminal investigative field although the bulk of his experience has been in Security work. He has been utilized full time on the Toplev Program for the past year and a half. Agent Freyman presents a mature, neat appearance and has a friendly personality. He is an enthusiastic worker and is considered a very thorough and capable investigator. While he has not received training along supervisory lines, it is believed that because of his enthusiasm and thoroughness, he could readily adapt himself to this type of work. He gets along very well with the public and his fellow agents. He is available for any assignment the Bureau may consider him qualified for; however, his preference is in the investigative Communist field.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

- | | |

| <u>✓</u> (1) Personal appearance. | <u>✓</u> (17) Firearms ability. |

CARL N. FREYMAN
Special Agent
GS-13
EOD 2-2-42

During the rating period Agent FREYMAN has been assigned exclusively to the Toplev Program and the general security informant development program. During the period he developed two security informants who are members of the Communist Party, several confidential sources of information concerning the Communist Party and trade unions, and recently assisted in securing an additional potential security informant who may have possibilities of reactivating in the Communist Party. He also assisted in the development of a security informant in a front group, which security informant has since moved from the area and is presently an informant of another field division. A considerable portion of his time has been spent in the development and handling of CG-5824-S, a former national leader of the Communist Party and formerly District Chairman of District #8, Communist Party, who has been ill for several years and is attempting to reactivate in the Communist Party at a high level. While this informant has been unable to reactivate as yet, he has furnished considerable valuable information concerning past and some current Communist Party activities.

Agent FREYMAN is a very good investigator and is capable of handling complicated type investigations. He requires the average amount of supervision and his paper work contains the average number of errors.

In August, 1952, Agent FREYMAN received a meritorious raise for his work in developing informants. He also participated in the apprehension of PAUL MILLER BOWEN, a Seattle Smith Act subject, in September, 1952, for which apprehension the Chicago office was commended by the Director.

Agent FREYMAN has been approved for weekend supervisory duty.

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee CARL N. FREYMANTitle Special AgentRating Period: from 4/1/53 to 3/31/54

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

- ✓ (1) Personal appearance.
+ (2) Personality and effectiveness of his personal contacts.
+ (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).

+ (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
+ (8) Initiative and the taking of appropriate action on own responsibility.
✓ (9) Planning ability and its application to the work.
✓ (10) Accuracy and attention to pertinent detail.
+ (11) Industry, including energetic consistent application to duties.
+ (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
✓ (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
✓ (14) Technical or mechanical skills.
✓ (15) Investigative ability and results:
✓ (a) Internal security cases
○ (b) Criminal or general investigative cases
○ (c) Fugitive cases

CARL N. FREYMAN
Special Agent
GS-13
EOD - 2/2/42

During the rating period SA FREYMAN, from April 1 to approximately November 1, 1953, was assigned to the Toplev Program of the Chicago Office. Since November 1 he has been assigned to the Infiltration Squad of the Security Section which handles Key Figures, organizations, etc. A considerable portion of his time during the past year has been spent in continued development and handling of CG 5824-S, a highly placed informant of the Chicago Office who is in a position to furnish information on both a local and national level concerning the CP-USA. This informant is extremely valuable and information obtained from him is handled in a highly commendable manner by SA FREYMAN.

SA FREYMAN's written work is always comprehensive, detailed, and well organized, and requires very little correction. He requires very little supervision and his attitude towards the Bureau's work is considered outstanding. He has exercised extremely sound judgment in the handling of the above informant, as well as the collateral handling of the informant's wife, [redacted]. His productivity is extremely high and he contributes generously of his own time in handling his work. SA FREYMAN has a wide amount of experience in the Security field, and has assisted in acclimating new agents on the squad. He has been constantly on the alert to make worthwhile suggestions which would improve the work of the Chicago Office in the Security field.

b7D

At the present time, SA FREYMAN, in addition to handling the above two informants, is assigned the case on the CP-USA District #8, which requires extremely sound judgment in the handling of this case as well as the reporting of information obtained.

SA FREYMAN during the rating period assisted in the development of [redacted] and [redacted] both of whom show promise of furnishing valuable information. He has also developed [redacted] from a Confidential Source into a qualified Security Informant.

SA FREYMAN is well qualified in the use of firearms and defensive tactics and is fully qualified to assist on dangerous raids and assignments. He is at the present time a Bureau approved Relief Supervisor. He is rated as excellent in dictation.

SA FREYMAN has served in the Newark, New York, and Chicago Divisions and has considerable experience in the criminal investigative field; however, the bulk of his experience in the Bureau lies in the security field. He is experienced in the security field in every aspect and has an excellent knowledge of security investigations and their objectives. He is extremely well read on the Communist ideology and has an energetic and enthusiastic approach to this type work.

He is mature, possessed of excellent judgment, has a friendly personality, and is neat in appearance. He is at the present time a Relief Supervisor on security work, though he has received limited training to date along administrative lines. He gets along very well with the public and his fellow agents.

SA FREYMAN has an extreme interest in the development of informants and has committed himself in the past in a very capable manner. For the past two years he has been personally involved in the handling of CG 5824-S who is one of the Bureau's top informants in the Communist field.

He is available for any assignments the Bureau may consider him qualified for. He is desirous of advancement in the Bureau, however his stated preference is in the investigative field.

Prior to the recent inspection of the Chicago Division the SAC Chicago made a number of recommendations regarding supervisory changes in that office. No action was taken to approve his recommendations at that time; however, the information was furnished to Inspector [] in order that he might thoroughly look into the situation during the inspection. The SAC had recommended among other things that SA Freyman be approved as supervisor of Desk Number 11 (Security - Industrial Division) in the Chicago Division. Inspector [] has advised that SA Freyman has been Acting Supervisor of Desk Number 11 since July 26, 1954. He advised that as of August 31, 1954, there were 20 agents assigned to Desk Number 11 handling 340 pending cases. The Inspector has advised that two substantive errors were noted in 317 pending files and none in 34 closed files reviewed on Freyman's desk; however, SA Freyman was not responsible for either of these errors. The Inspector noted that SA Freyman is one of the most experienced security men in the Chicago Office, having had eleven years experience in that work. However, the Inspector did not feel that he had been a supervisor long enough to judge the quality of his supervision. The Inspector stated that SA Freyman appeared enthusiastic about desk work and it was believed experience should qualify him to supervise security work. The Inspector recommended that SA Freyman be approved as a full-time supervisor on security work.

SA Freyman entered on duty February 2, 1942, and is presently in Grade GS-13, \$8760 per annum. He is available for general and special assignment; interested in advancing along administrative line in the Bureau service and has been recommended for such advancement by his SAC. He was approved as a Relief Supervisor on May 28, 1953. He is capable of handling the most complicated investigations and has had experience in every aspect of the security field. He has an excellent knowledge of security investigations and their objectives and is extremely well read on the Communist ideology and has an energetic and enthusiastic approach to this type of work. The SAC has advised he is mature, exercises excellent judgment, has a friendly personality and is neat in appearance. He was rated satisfactory in his 1951, 1952, 1953 and 1954 annual performance ratings and his services have been entirely satisfactory. No disciplinary action has been taken against him.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee CARL N. FREYMANTitle SPECIAL AGENTRating Period: from 4/1/54 to 1/21/55

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

- ✓ (1) Personal appearance.
+ (2) Personality and effectiveness of his personal contacts.
+ (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
+ (4) Physical fitness (including health, energy, stamina).
+ (5) Resourcefulness and ingenuity.
✓ (6) Forcefulness and aggressiveness as required.
+ (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
+ (8) Initiative and the taking of appropriate action on own responsibility.
✓ (9) Planning ability and its application to the work.
✓ (10) Accuracy and attention to pertinent detail.
+ (11) Industry, including energetic consistent application to duties.
+ (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
✓ (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
✓ (14) Technical or mechanical skills.
+ (15) Investigative ability and results:
+ (a) Internal security cases
2 (b) Criminal or general investigative cases
2 (c) Fugitive cases
2 (d) Applicant cases
2 (e) Accounting cases
✓ (16) Physical surveillance ability.

- ✓ (17) Firearms ability.
+ (18) Development of informants and sources of information.
✓ (19) Reporting ability:
+ (a) Investigative reports
+ (b) Summary reports
+ (c) Memos, letters, wires
 (Consider: ✓ conciseness; ✓ clarity; + organization; + thoroughness; + accuracy; + adequacy and pertinency of leads; + administrative detail.)
✓ (20) Performance as a witness.
✓ (21) Executive ability:
+ (a) Leadership
+ (b) Ability to handle personnel
+ (c) Planning
+ (d) Making decisions
+ (e) Assignment of work
+ (f) Training subordinates
+ (g) Devising procedures
+ (h) Emotional stability
+ (i) Promoting high morale
+ (j) Getting results
✓ (22) Ability on raids and dangerous assignments:
+ (a) As leader
+ (b) As participant
+ (23) Organizational interest, such as making of suggestions for improvement.
+ (24) Ability to work under pressure.

CARL N. FREYMAN
Special Agent
GS-13
EOD 2/2/42

This special performance rating is being submitted on SA CARL N. FREYMAN to reflect his progress since the last performance rating and particularly during the past sixty days since he has been assigned to full-time supervisory duties in the Chicago Division.

Mr. FREYMAN makes a very excellent personal appearance, is a mature, experienced agent and has the ability to handle any type of case in the security field. He has clearly demonstrated that he has an unusual knowledge of Marxism since he has read extensively on the theories of Communist Ideology. He has done some excellent work in the Security Informant field.

During the rating period he has had considerable experience as a Relief Supervisor and during the period from July, 1954, until October 18, 1954, he was Acting Supervisor of the security squad which is responsible for handling the industrial sections of the Communist Party as well as supervision of investigations of Communist infiltration of labor unions. He is an extremely hard-working, energetic, enthusiastic agent who has demonstrated that he does have supervisory ability. During the past sixty-day period he has supervised the squad responsible for handling major groups, which is now known as Security Squad Number 2. In conjunction with his duties he handles the supervision of front groups, front group key figures, CP key figures and top functionaries. In addition, he has the responsibility for the supervision of the Communist Party, USA, and other basic revolutionary organizations.

This supervisor has demonstrated the ability in the short period of time he has performed as a full-time supervisor that he has the confidence of the personnel working for him and I believe that he will continue to do a good job in a supervisory capacity.

In addition to his other duties during the rating period, SA FREYMAN, because of his extensive knowledge of Communist ideology, was selected as the agent to sit at the counsel table in the Smith Act case involving CLAUDE MACK LIGHTFOOT which he is presently handling.

On August 2, 1954, the Director commended the Chicago Office for the splendid results achieved in connection with an extortion case involving [redacted] In addition, he commended a number of agents for the diligent enthusiasm and keen interest in handling this case, including SA FREYMAN.

On November 4, 1954, the Director commended SA FREYMAN for his able assistance in the supervision of an important operation on October 24, 1954, pertaining to a highly confidential matter. The Director stated that the success of this operation was brought about in large measure by the splendid fashion in which he aided in the direction of personnel involved.

On January 6, 1955, SA FREYMAN received a letter of censure from the Director in connection with a Security Matter case wherein incorrect information was submitted in a report by the Chicago Office dated February 25, 1954, but a corrected amended report was not submitted until December 21, 1954. This case was under SA FREYMAN's supervision after October 15, 1954, and the Bureau commented that he was derelict in not seeing that the amended report was promptly submitted.

I feel that SA FREYMAN's progress as a full-time supervisor is proceeding in a highly satisfactory manner and with additional experience on the desk he should continue to develop in this capacity. Because of his deep-seated knowledge of Communist Party operations in the Chicago area, he is an extremely valuable agent in the Chicago Division.

SYNOPSIS:

Chicago 12/22/54

Subject, a Negro, added to Security Index in February, 1954, on basis of data in security summary report of SA [REDACTED], Chicago, dated 2/25/54, wherein [REDACTED] identified with SWP activities by two informants, [REDACTED] and [REDACTED]. In March, 1954, [REDACTED] employed by [REDACTED] Illinois, as "kitchen helper," and an SGE investigation was conducted. Following suspension from Federal employment on 8/4/54, [REDACTED] appeared at Chicago Office on 8/12/54 and denied activities set out in charges against him, particularly certain meetings at which he had been reported in attendance by [REDACTED]. Inquiry disclosed that [REDACTED] had mistaken subject for another person, rendering parts of above report of SA [REDACTED] wholly inaccurate and raising question of retention of [REDACTED] in Security Index. Foregoing developments set out in report under SOE caption by Chicago dated 9/16/54. Upon adjudication of SGE case by employing agency, [REDACTED] restored to duty on 12/7/54. Chicago was thereupon instructed by Buairtel of 12/15/54 to immediately reinterview both [REDACTED] and informant [REDACTED] to completely resolve sympathies of subject. Chicago further instructed to explain failure to submit amended pages to security report of SA [REDACTED] of 2/25/54, above, to delete erroneous data, noted previously. By letter and report of 12/21/54, Chicago set out results of recontacts with [REDACTED] and informant [REDACTED] in which subject admitted attending SWP "social" function and appeared cooperative, although interviewing Agents described [REDACTED] as unable to furnish detailed dates, even those relating to personal background, and as exhibiting "an impression of bewilderment." [REDACTED] states [REDACTED] never an SWP member, although considered a "contact" at one time. [REDACTED] removed from Security Index. Chicago letter of 12/22/54, attached, states case assigned to SA [REDACTED] who has advised that he has no valid excuse for failure to submit amended pages promptly. SAC, Chicago, notes that SA [REDACTED] is over-all performance is highly commendable and that he has devoted considerable of his own time in investigation of Independent Socialist League. Case supervised in Chicago by SAs [REDACTED] and Carl N. Freyman. Attached letter reflects SA [REDACTED] gave

proper instructions to SA [] to promptly submit the amended pages prior to [] reassignment to a different desk on 10/15/54. SA Freyman instructed SA [] to reinterview [] prior to submission of amended pages, which led to delay. With regard to supervision at SOG, security case closed following receipt of security summary report of 2/25/54, above. Domestic Intelligence Division not apprised of foregoing developments, including mistaken identity, since these matters were forwarded to Bureau in connection with SGE case. Matter first came to notice by receipt of Chicago airtel of 12/10/54 in Internal Security Section under caption "Security Index - Special Section" advising of subject's clearance by []. This airtel submitted in accordance with standing instructions to field to advise of changes in employment status of Security Index Subjects employed by Federal Government.

Observations: (1) The Chicago office had the principal responsibility of correcting erroneous security report of 2/25/54 and taking appropriate action to resolve question of retention of [] in Security Index. SA [] of Chicago states he has no valid excuse for failure to handle matter promptly. SA Carl N. Freyman of Chicago has supervised case from 10/15/54 to present time and by instructing SA [] to defer submission of amended pages until subject could be reinterviewed prolonged delay in taking proper action. SA [] of Chicago supervised case during period from 9/16/54, date of submission of afore-mentioned SGE report, to 10/15/54, when he was reassigned to another desk. In interim he properly instructed SA [] to submit amended pages promptly.

(2) Supervision in Domestic Intelligence Division proper in that immediate steps taken upon first learning of mistaken identity in case by afore-mentioned Chicago airtel of 12/10/54.

RECOMMENDATIONS:

(1) It is recommended that this memorandum be referred to the Administrative Division to consider directing letters of censure to SAs [redacted] and Carl N. Freyman of the Chicago Office in line with the preceding observations.

DETAILS:

[redacted] a Negro, was added to the Security Index in February, 1954, on the basis of information furnished by two Chicago informants, [redacted] and [redacted] both of whom identified [redacted] with activities of the Socialist Workers Party (SWP) in Chicago during 1952 and 1953. The summary report of SA [redacted] dated February 25, 1954, set out in detail subject's reported activities.

In March, 1954, [redacted] was employed as a "kitchen helper" by the [redacted] at [redacted] Illinois, and a Security of Government Employees (SGE) investigation was conducted on the subject. He was subsequently suspended from his Federal employment on August 4, 1954, and on August 12, 1954, he appeared at the Chicago Office. He admitted attending a social function of the SWP but denied the SWP

activities with which he had been charged by the employing agency, particularly attendance at certain meetings previously reported by informant [redacted]. Investigation by Chicago thereafter disclosed that [redacted] had in fact mistaken subject for another person, thus rendering parts of the above security report of SA [redacted] entirely erroneous. The remaining informant, [redacted] identified subject with but limited SWP activity. The foregoing data were set out in the SGE report of SA Francis R. McGinty dated September 16, 1954, which was appropriately disseminated to the Department and to the Civil Service Commission.

With the above development of a mistaken identity, a question was thus raised as to the retention of [redacted] in the Security Index. Further, it also became incumbent upon the Chicago Office at that point to submit amended pages to the security report of SA [redacted] above, since portions of it were found to be erroneous.

The mistaken identity by [redacted] first came to the attention of the Domestic Intelligence Division upon the receipt in the Internal Security Section of Chicago airtel of December 10, 1954, under the caption "Security Index - Special Section." This communication was submitted in line with standing instructions to the field to advise the Bureau immediately of any change in employment status of Security Index subjects employed by the Federal Government. Subject's security and SGE files were pulled in order that an appropriate communication might be directed to the Department, a practice which we follow in accordance with the Director's instructions. A review of the SGE case at that time reflected that [redacted] had advised that the subject was unknown to him. This informant had previously identified subject with considerable SWP activities and the revelation of his mistaken identity left but one informant, [redacted] who had identified subject with limited SWP associations. By airtel of December 15, 1954, we instructed Chicago to immediately reinterview the subject, as well as informant [redacted] to completely resolve subject's sympathies and to explain their failure to submit amended pages to the erroneous security report of SA [redacted] of February 25, 1954.

b6
b7C
b7D

By letter and report of December 21, 1954, Chicago advised that upon reinterview on December 20, 1954, [redacted] admitted attending one SWP function, described as a "social" affair, and that the informant, [redacted] on recontact on December 20, 1954, could recall but two SWP functions attended by [redacted] - a May Day affair in May, 1952, and a New Year's Eve party on December 31, 1952. Informant stated that [redacted] had not been a member of the SWP but had been considered a "contact" at

one time. The Agents interviewing [] advised that he appeared to be cooperative but found difficulty in recalling specific dates, including dates regarding background data. It was stated that [] "appears and talks in such a manner that he leaves an impression of bewilderment." In view of the foregoing, [] has been removed from the Security Index, pursuant to Chicago's recommendation.

Attached is Chicago letter of December 22, 1954, concerning the delinquency in that office in failing to submit amended pages to the security report of SA [] of February 25, 1954, referred to previously. It is stated that this case has been continuously assigned to SA []. It was supervised by SA [] until October 15, 1954, and, thereafter, by SA Carl N. Freyman. The SAC states that SA [] advised him that he, [], has no valid excuse for failure to handle this matter more promptly. SA [] stated that he had been told by his supervisor to submit amended pages promptly but, due to urgent matters assigned him, he had not had an opportunity to do so. Further, SA [] indicated that he felt another interview with the subject was advisable before submitting amended pages and that he had delayed submitting the pages until the interview could in fact be conducted. The SAC points out that SA [] over-all performance is highly commendable and that he had devoted a great deal of his own time in recent months in connection with investigation of the Independent Socialist League in Chicago. The SAC advises that he has impressed on SA [] the Bureau's concern with his failure to afford this case the proper attention and has advised him that such performance will not be tolerated in the future. The SAC states that for this reason he believes that SA [] has been properly admonished and recommends that a letter of censure not be directed to him.

b6
b7C
b7D

As noted above, the case was supervised by SA [] until October 15, 1954. SA [] has advised the SAC at Chicago that he recalls discussing the case with SA [] and pointing out to him the necessity of promptly submitting amended pages to the security report of February 25, 1954. Thereafter, SA [] was reassigned to another desk. SA Carl N. Freyman assumed supervision of this case on October 15, 1954. The attached letter notes that SA Freyman advises that he discussed the case with SA [] on several occasions during monthly reviews of SA [] cases. Freyman instructed SA [] to reinterview the subject and thereafter submit amended pages to the Bureau.

OBSERVATIONS:

(1) The Chicago Office had the principal responsibility of correcting the erroneous security report of February 25, 1954, and taking appropriate action to resolve the question of retention of [] in the

Security Index. SA [] of Chicago states he has no valid excuse for failure to handle the matter promptly. SA Carl H. Freyman of Chicago has supervised this case from October 15, 1954, to the present time and by instructing SA [] to defer the submission of amended pages until subject could be reinterviewed prolonged delay in taking proper action. SA [] of Chicago supervised the case during the period from September 16, 1954, date of the submission of the afore-mentioned SGE report, to October 15, 1954, when he was reassigned to another desk. In interim, he properly instructed SA [] to submit amended pages promptly. Under these circumstances, it is not felt that SA [] of Chicago should be censured.

(2) Supervision in the Domestic Intelligence Division was proper in that immediate steps were taken upon first learning of mistaken identity in the case by afore-mentioned Chicago airtel of December 10, 1954.

SUBJECT: [REDACTED]
SECURITY MATTER - SWP

ReBuairtel December 15, 1954 requesting that amended pages of the report of SA [REDACTED] dated February 25, 1954 at Chicago, be immediately submitted to the Bureau and that the explanations of agents and supervisors be submitted concerning this delay.

This case has been continuously assigned to SA [REDACTED]. It was supervised by SA [REDACTED] until October 15, 1954 and thereafter by SA CARL N. FREYMAN.

SA [REDACTED] has advised me that he has no valid excuse for failure to handle this matter more promptly. He states that he had been told by his supervisors to submit amended pages promptly but due to urgent matters assigned him he has not had an opportunity to do so. SA [REDACTED] further states that he felt another interview with subject was advisable before submitting amended pages, therefore, he delayed until such time as he could conduct the interview which he has now accomplished.

SA [REDACTED] has advised that he clearly recalls discussing with SA [REDACTED] on one occasion the necessity of promptly submitting amended pages of SA [REDACTED] report. Thereafter, SA [REDACTED] was reassigned to another desk and was not in a position to follow the case any further.

SA FREYMAN is currently on emergency annual leave. He telephonically advised, however, that he recalls the case and certain discussions with SA [REDACTED] concerning it on several occasions. These discussions emanated from monthly reviews of SA [REDACTED] cases. SA [REDACTED] was instructed to reinterview the subject and thereafter submit amended pages to the Bureau.

Ordinarily a letter of censure should be recommended for SA [REDACTED] for his failure to follow this matter more closely. His supervisors advised, however, that SA [REDACTED] over-all performance is highly commendable. He is carrying a very high case-load and submits a high volume of work. He has been generously devoting a great deal of his own time in recent months in an effort to obtain adequate informant coverage in the Independent Socialist League in Chicago. He with several other agents have been

conducting fisurs during evening hours on a voluntary overtime basis in an effort to locate meetings and meeting places of ISL members in Chicago. They have been successful in this endeavor. He has successfully participated in the development of an informant in the Young Socialist League, the youth group of the ISL.

I have sufficiently impressed on SA [REDACTED] the Bureau's concern with his failure to afford this case the proper attention and have advised him that such performance will not be tolerated in the future. He has been instructed to follow his supervisor's instructions more closely in the future.

In view of the above I believe that SA [REDACTED] has been properly admonished and it is recommended that a letter of censure not be directed to him. His work will be followed closely to insure against any recurrence of such a delinquency.

The recent trial and conviction of [redacted] in Chicago was the first prosecution under the membership provision of the Smith Act. [redacted] trial commenced 1/10/55 and was completed on 1/26/55 when the jury returned the verdict of guilty. By attached letter dated 1/27/55 SA [redacted] Chicago, recommends a meritorious cash award be afforded SA Carl N. Freyman and letters of commendation be afforded SAs [redacted] J. Roger Walters and [redacted] for their outstanding performance in connection with this trial.

SA Freyman was assigned to sit at the counsel table during the trial to assist Government attorneys. Commencing on 12/1/54 he worked exclusively on preparations for the trial and, through his profound knowledge of Marxism and Leninism, he was of invaluable assistance to Government attorneys prior to and during the trial. He and SA [redacted] were responsible for furnishing AUSA [redacted] a background in Communist literature, strategy and tactics, which enabled him to present evidence and handle witnesses in a more effective manner. SA Freyman contributed an average of five hours per day voluntary overtime to assure the success of the case and, in one instance, worked all night in connection with the preparation of a Government brief.

SA [redacted] was the alternate Agent to sit at the counsel table and assisted Government attorneys, both prior to and during the trial. He, too, worked one entire night in connection with the Government brief. He assisted SA Freyman on a daily basis in preparing necessary correspondence and in keeping the Bureau advised of current developments.

SA Walters was assigned to handle exhibits during the trial and served as liaison between the Bureau and the office of the USA. SA [redacted] assisted in arranging for necessary witnesses prior to and during the trial and was responsible for interviewing an informant who was to be a key witness with the result that the informant was an effective witness. SA [redacted] was responsible in large part for the

RECOMMENDATIONS:

(1) The Domestic Intelligence Division concurs with the recommendations of the SAC, Chicago, and recommends that SA Carl N. (2) If you approve, it is recommended this memorandum and the attached letter from Chicago be forwarded to the Administrative Division for appropriate consideration.

ADDENDUM OF THE ADMINISTRATIVE DIVISION

RP EJI:ilw (2) 2/8/55

It appears from the foregoing that SA Carl N. Freyman was instrumental in the successful conclusion of this difficult trial which resulted in the conviction of the subject. The Government prosecutors have indicated that the services of SA Freyman, as well as the other agents involved, were responsible for the success achieved in the case. It is obvious that SA Freyman devoted himself to this difficult assignment with outstanding initiative and perseverance with the result that his services have reflected considerable credit upon the Bureau. His performance in this matter is considered to have been superior to such extent as to merit special recognition. Furthermore, it is felt that the other agents who assisted in this matter performed in such an exemplary manner as to warrant letters of commendation.

BUREAU RECORD OF SA FREYMAN

SA Freyman entered on duty as a Special Agent on 2/2/42 and is presently in grade GS-13, \$8760 per annum. His record has been satisfactory although he was censured on 1/6/55 for his failure while assigned as a Supervisor to insure that amended pages of a report in a security case were promptly submitted to the Bureau. He has been commended on four occasions for excellent performance and received a meritorious increase in salary on 8/3/52 for developing several security informants.

STATUS OF NEW INCENTIVE AWARDS PROGRAM

On 2/2/55 Mr. Personnel Officer of the Department, informally advised that the final draft of the Department's new Incentive Awards Plan is awaiting the signature of the Attorney General and that the heads of the Bureaus will be officially notified of approval of the plan as soon as the Attorney General signs it. He further advised that the Bureau will be immediately notified of approval of the Bureau's Incentive Awards Plan, which was submitted to the Department on 12/30/54, as soon as the Department's plan has been signed by the Attorney General.

CONCLUSIONS AND RECOMMENDATIONS OF THE ADMINISTRATIVE DIVISION

SA Freyman is considered to have met one of the standards for a cash award under the new Incentive Awards Plan which provides as follows: "Sustained above-average performance, for such period of time as would be reasonable under the circumstances, that merits recognition." On the basis of the schedule of awards for performance of this type as set out in the Bureau's new Incentive Awards Plan, which

it appears will be officially approved by the Department in the immediate future, SA Freyman would be entitled to an award of from \$100 to \$150 since his performance is considered to be of moderate value and to have limited application to the Bureau's work. Since this was the first case of this type prosecuted under the Smith Act and in view of the many obstacles and problems which had to be overcome it is felt that he is entitled to the maximum award. Accordingly, it is recommended:

1) That SA Freyman be granted a cash award in the amount of \$150.00. If you approve, he will be advised of the award but final action to pay the award will be held in abeyance until the Department has officially approved the Bureau's new Incentive Awards Plan.

ATTN: PERSONNEL SECTION

Rebulet 2/7/55 advising of a vision deficiency of one of the eyes of the above Agent and requesting to be advised if this vision can or cannot be corrected to 20/20 at this time. It is pointed out that the Agent's physical examination taken in 1953 reflected that his vision was corrected to 20/20 at that time.

I have discussed this matter with the Agent and have been told that the condition in this Agent's left eye has existed for many years, it being a slight muscular condition which is not subject to complete correction. The Agent has advised me that this condition existed, and the Bureau was aware of it, when the Agent received his appointment.

Agent FREYMAN has advised me that he had an eye examination by a reputable eye, ear, nose and throat specialist in January, 1955, at which time he received new glasses. He advised that a slight deficiency still exists in his left eye and he was advised by the specialist that no additional corrective measure, such as an operation, would completely correct this condition.

Rerep of SA [redacted] Chicago, dated 2/8/55, captioned above, and Bulet 2/18/55 pointing out certain errors set forth on the initial copy in the character of this report, and further calling attention to instructions in no number SAC Letter H, 3/11/52, relative to descriptions of work of subjects employed in key facilities. Rebulet requested necessary corrections and recommendations on administrative action.

I have reviewed the explanations of SA [redacted] and Supervisor CARL N. FREYMAN, which explanations are attached herewith.

No recommendation for administrative action is being made in the case of SA [redacted] because I feel that it will be sufficient if this letter is placed in his personnel file. I feel that the error in the character of his report may not have been chargeable entirely to him, and in reference to the second enumerated error, I feel that the use of the terminology describing the subject's employment, as set forth in [redacted] report, may have been an error in the interpretation of Bureau instructions rather than due to a lack of knowledge on the part of [redacted] of the rules and regulations of the Bureau.

b6

I also recommend no administrative action to Supervisor CARL N. FREYMAN for the above stated reasons.

Three copies of the explanation memorandum of the Agent involved and the Supervisor are submitted herewith.

Explanation from SA [redacted]

Reference is made to my report dated February 8, 1955, at Chicago on [redacted] (Bufile 100-369505, Chicago File 100-21552) in which I reported the character of the case on the initial copy to the Bureau as "Internal Security - ISL, Internal Security Act of 1950, Smith Act of 1940."

b6
b7c

The above error reflects on my thoroughness as an agent and my attention to detail, as the character Smith Act of 1940 does not pertain to this subject.

To the best of my knowledge, I do not recall dictating the character of Smith Act of 1940, and am further noting that I have never been assigned a subject with such a character.

It is further noted that I reported in the details of referenced report the exact employment position of the subject. This reflects on my lack of knowledge of the rules set forth in the Manual of Instructions pertaining to report writing on security subjects.

The above two errors, which I am responsible for, will not happen again.

Comments of Supervisor Carl N. Freyman

The above-described errors should have been noted by me and appropriate corrections made. These errors will not occur in the future.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee CARL N. FREYMAN, #13571Title SPECIAL AGENTRating Period: from 4/1/54 to 3/31/55

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

- ✓ (1) Personal appearance.
+ (2) Personality and effectiveness of his personal contacts.
+ (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
+ (4) Physical fitness (including health, energy, stamina).
+ (5) Resourcefulness and ingenuity.
+ (6) Forcefulness and aggressiveness as required.
+ (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
+ (8) Initiative and the taking of appropriate action on own responsibility.
+ (9) Planning ability and its application to the work.
+ (10) Accuracy and attention to pertinent detail.
+ (11) Industry, including energetic consistent application to duties.
+ (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
+ (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'knowhow' of application.
✓ (14) Technical or mechanical skills.
+ (15) Investigative ability and results:
+ (a) Internal security cases
+ (b) Criminal or general investigative cases
+ (c) Fugitive cases
+ (d) Applicant cases
+ (e) Accounting cases
✓ (16) Physical surveillance ability.

- + (17) Firearms ability.
+ (18) Development of informants and sources of information.
+ (19) Reporting ability:
+ (a) Investigative reports
+ (b) Summary reports
+ (c) Memos, letters, wires
 (Consider: + conciseness; + clarity; + organization; + thoroughness; + accuracy; + adequacy and pertinency of leads; + administrative detail.)
+ (20) Performance as a witness.
+ (21) Executive ability:
+ (a) Leadership
+ (b) Ability to handle personnel
+ (c) Planning
+ (d) Making decisions
+ (e) Assignment of work
+ (f) Training subordinates
+ (g) Devising procedures
+ (h) Emotional stability
+ (i) Promoting high morale
+ (j) Getting results
✓ (22) Ability on raids and dangerous assignments:
+ (a) As leader
+ (b) As participant
+ (23) Organizational interest, such as making of suggestions for improvement.

CARL N. FREYMAN, #13571
SPECIAL AGENT
GRADE GS-13

SA FREYMAN is currently assigned as full-time supervisor of Security Squad 2, which position he has held since approximately October 15, 1954. For approximately four months prior to that time he was Acting Supervisor of the security squad which is responsible for handling the industrial sections of the Communist Party as well as supervision of investigations of Communist infiltration of labor unions.

SA FREYMAN makes an excellent personal appearance, has a pleasing personality and has the ability to direct personnel. He is in excellent physical condition, (is available for general or special assignment wherever his services may be needed and is fully capable of handling the Bureau's more complicated investigative matters.) He has had testifying experience and has performed capably. He has established himself as an excellent and thorough investigator and his performance has been outstanding in the development of security informants. He is primarily responsible for the development of the top security informant in the Chicago Division and still devotes a considerable amount of his time to the direction and control of the informant, even though he is not primarily responsible at this time for the handling of this informant. This is because of the excellent personal relationship he has established with this informant.

SA FREYMAN has definitely established capability as an administrator. His desk is known as the Major Groups Desk, which includes supervision of the basic revolutionary groups, front organizations, front group Key Figures, CP Key Figures and top functionaries. He is also responsible for the supervision of the majority of the security informants in the Chicago Division. He has an excellent knowledge of theories of Marxism-Leninism and is thoroughly versed in Communist ideology. This coupled with his tremendous drive, enthusiasm and interest in the Bureau's work has equipped him very well for his current assignment. He is beyond question one of the hardest working agents in the Chicago Office.)

On August 2, 1954, he was one of a number of agents commended by the Director for the diligence, enthusiasm and interest exhibited in connection with an extortion case. He was personally commended by the Director on November 4, 1954, for the splendid fashion in the direction of personnel which resulted in obtaining highly important security information of a confidential nature. The Director commended him for the high caliber of his service. On January 6, 1955, he was criticized by the Bureau for an extended delay in submitting an amended report in a Security Matter case. On February 10, 1955,

the Director commended SA CARL N. FREYMAN for the outstanding caliber of his service in connection with the trial of Smith Act subject CLAUDE MACK LIGHTFOOT. He was awarded under the Incentive Awards Plan for his untiring efforts in the preparation of the case for trial and his profound knowledge of Marxism and Leninism which was of considerable assistance to the prosecuting attorneys.

His services during the entire rating period have clearly indicated his conscientious devotion to duty, his extreme interest in the Bureau's work and he has demonstrated his ability as a supervisor.)

The Chicago Office submitted the report of Special Agent [REDACTED] dated February 8, 1955, concerning the captioned subject. The character of the initialed copy of the report was carried as IS-ISL, ISA of 1950, Smith Act of 1940. The other copies furnished to the Bureau carried the character as IS-ISL, ISA of 1950. The details noted that [REDACTED] is employed at a key facility and that he works on the assembly line assembling crank shafts. No Number SAC Letter H dated March 11, 1952, points out that statement should not be used in a report that is classified Confidential.

The Bureau requested corrected pages for report on February 18, 1955. By letter dated March 14, 1955, the SAC, Chicago advised that "Smith Act of 1940" should be deleted from the character of the report and that the sentence concerning the product of subject's employer should be deleted. The necessary corrections have been made in the copies received by the Bureau and the report has been disseminated to the Records Administration Branch and G-2.

The recommendations of the SAC regarding administrative action, the explanation of the Agent writing the report and the comments of the Supervisor approving the report for transmittal to the Bureau were submitted by separate letter dated March 14, 1955. SA [REDACTED] who wrote the report noted that the error in the character of the report reflects on his thoroughness and his attention to detail, that he does not recall dictating "Smith Act of 1940" and points out that he has never been assigned a case with such a character. SA [REDACTED] further notes that the statement in the details reflects on his knowledge of Bureau instructions and promises that these errors will not be repeated. Supervisor Carl N. Freyman who approved the report admits he should have noted these errors and taken corrective action and promises that these errors will not occur in the future.

CONSOLIDATION

See Klerkoper advised this was a mimeographed report and "Smith Act of 1940" was typed on initialed copy. New

SAC D. S. Hostetter recommends no administrative action be taken against SA [] because he feels that it will be sufficient if his letter is placed in SA [] personnel file. He feels that the error in the character of the report may not have been chargeable entirely to him and that the error in the details describing subject's employment may have been an error in the interpretation of Bureau instructions rather than due to a lack of knowledge on the part of [] of the rules and regulations of the Bureau. He also recommends that no administrative action be taken against Supervisor Carl N. Freyman for the same reasons. b6 b7C

RECOMMENDATIONS:

(1) It is recommended that SA [] be censured for the afore-mentioned errors.

(2) It is recommended that Supervisor Carl N. Freyman be censured for approving the report containing these errors.

(3) It is recommended that this memorandum be routed to the Consolidation Unit for information with regard to corrective action which has been taken on the report.

On 7-27-55 SA Freyman's personnel file was reviewed for the purpose of possibly considering his reallocation to Grade GS-14. He has been a Full-time Supervisor only since 11-1-54 (acting in this capacity since 7-54 pending approval). In addition, his performance does not at this time appear to have been sufficiently outstanding so as to warrant immediate consideration for reallocation to GS-14, it being noted he was censured 4-5-55. It is felt no action should be taken at this time to consider him for reallocation to Grade GS-14.

RECOMMENDATION:

That his file again be reviewed in this regard during December, 1955.

By memorandum dated 12-20-55 SAC, Chicago recommended that Supervisor Freyman be reallocated to Grade GS-14 in view of his responsibilities as supervisor of Security Squad #2. SA Freyman supervises the major groups squad which included all of the basic revolutionary groups, front organizations, key figures, top functionaries, as well as the majority of the security informants and panel sources in that office. As of 11-30-55, SA Freyman had under his supervision 29 agents and approximately 270 cases. He was responsible for the direction of many of the more important and complicated security investigations in the Chicago Office. He was regarded as the #1 security supervisor in the Chicago Office and was in charge of the overall direction of security matters in the absence of the ASAC. Regarding contributions to the Bureau, SA Freyman without question as an individual had, during the past 5 years, made a tremendous contribution to the Bureau in the Security field. He was personally responsible for the development of 7 current active security informants in addition to a number of others which have since been discontinued. He personally developed CG 5824-S, who was considered one of the best Bureau informants in the security field, as well as [redacted] both of whom were acting on a district level in the Chicago area. SAC Hostetter also attached a special performance rating on Supervisor Freyman in which he was rated SATISFACTORY. SAC Hostetter further noted that Supervisor Freyman had demonstrated supervisory ability and was interested in and capable of administrative advancement. He was available for special and general assignment. b7D

A review of his personnel file reflects that he entered on duty as a Special Agent on 2-2-42 and is presently in Grade GS-13, \$9635 per annum. SA Freyman was designated relief supervisor on 5-28-53 and has been a full-time Security Supervisor since 10-22-54. He is presently Supervisor of Security Squad #2 in the Chicago Office.

SA Freyman was afforded letters of COMMENDATION 1-6-48, 4-27-49, 11-5-54 and 10-5-55. On 8-3-52 he received a MERITORIOUS INCREASE in view of his outstanding and extremely important work performance in the field of national defense in developing highly confidential information. On 2-10-55 he received an INCENTIVE AWARD in the amount of \$150 in recognition of the outstanding calibre of his services in connection with the trial of Smith. Act subject Claude Mack Lightfoot.

SA Freyman was CENSURED 1-6-55 for delay in submitting an amended report, on 4-5-55 he was CENSURED inasmuch as he approved a report which included erroneous information, on 9-15-55 he was CENSURED inasmuch as he approved a report which set forth erroneous information, on 9-20-55 he was CENSURED inasmuch as he approved a report in which information in the synopsis did not agree with the information set forth in the details, and on 9-30-55 he was CENSURED for inadequacies disclosed in his performance as a Supervisor during the recent inspection of the Chicago Office.

Memorandum dated 7-28-55 reflected this agent's file was reviewed for the purpose of possibly considering his reallocation to Grade GS-14, however, he was passed over to be reconsidered at a later date inasmuch as it did not appear he was sufficiently outstanding at that time to warrant consideration. On 12-12-55 he was again considered for Grade GS-14 reallocation but was passed over to be reconsidered at a later date in view of the three letters of censure he had received since he was last considered for Grade GS-14 reallocation.

His overtime for the past six months is as follows: June, 1955 was 4 hours 11 minutes; July was 4 hours 33 minutes; August, 5 hour 9 minutes; September, 4 hours 47 minutes; October, 4 hours 11 minutes; and November was 3 hours 49 minutes.

SAC Hostetter of the Chicago Office is in Grade GS-16, and ASAC Schmit is in Grade GS-14. There are two Supervisors in Grade GS-14 in the Chicago Office.

RECOMMENDATION:

The five letters of censure Supervisor Freyman has received during 1955 have been noted. However, in view of the Incentive Award he received in February, 1955, his outstanding attitude as reflected by his voluntary overtime, the fact that he has been passed over on one occasion since his last letter of censure for Grade 14 reallocation, and his otherwise entirely satisfactory record, it is recommended that he be reallocated to Grade GS-14, \$10,320 per annum, for the duration of his present assigned duties as Supervisor in the Chicago Office.

SAC HOSTETTER: FREYMAN is Supervisor of Security Squad #2 (Major Case Squad). All matters under his supervision are involved and complicated. He has a tremendous knowledge of security subjects and organizations; he has an excellent understanding of Marxism-Leninism, and is extremely valuable in his present position. He is the hardest working Bureau employee assigned to the Chicago office. For the past nine months his average daily overtime has been in excess of 4 hours 30 minutes. He is above average in initiative and aggressiveness. He is very conscientious and has an intense interest in the matters under his supervision. He is interested in and capable of administrative advancement.

Rating: SATISFACTORY

INSPECTOR VAN PELT: Substantive errors were found in 5 out of 215 pending and closed files reviewed which were under SA Freyman's immediate supervision, or 2.32%, high.

One case involved delayed investigation of [redacted] SM - MCI. Instant case was opened 4/29/54 upon data received from informant that one [redacted] had conducted military drill for approximately 40 Muslim Cult of Islam members. No report submitted until file was reviewed 8/26/55 during inspection, or delay of almost 1 year and 4 months. While Supervisor Freyman explained that he had instructed "top priority" be afforded this investigation, it appears that he failed to effectively follow through to insure that this investigation was afforded such attention.

The other 4 cases involved 47 delays of from 3 to 7 months in channelizing data to pertinent investigative files

Supervisor Freyman explained, in each of the above 4 cases, that he discussed these delays with the agents to whom cases were assigned. However, it does not appear that he took sufficiently effective action.

In view of the nature and extent of the substantive errors in the above 5 cases, it is felt administrative action against Supervisor Freyman is warranted. Such action has been recommended separately concerning other personnel involved.

Fourteen form errors attributable to agents were found in 13 of above-mentioned 215 files, or 6.05%, somewhat high, and 17 clerical errors of form were found in 10 of said files, or 4.65%, somewhat low.

Supervisor Freyman's voluntary overtime 5/1-7/31/55 averaged 4 hours and 20 minutes daily compared with the office average of 2 hours and 4 minutes and his squad's average of 2 hours and 13 minutes. This was his first inspection as a supervisor, having been appointed to such full-time duties 11/1/54. (He presented a mature, businesslike personal appearance, handled himself with confidence, seemed intelligent and alert and displayed a well above-average knowledge of the security program. He advised he is fully available, is desirous of advancing in the Bureau and is interested in performing supervisory, administrative and executive-type duties.)

While it is felt above weaknesses warrant administrative action against Supervisor Freyman, it appears that despite said delinquencies, he has favorable prospects for further progress and that Inspectors Aides' training and experience will facilitate his operations.

RECOMMENDATIONS: (1) SA Freyman be sent a letter of censure covering above weaknesses.

(2) That Supervisor Freyman be provided Inspector Aides' training when possible.

SA [REDACTED]: I had this case from 8/10/54 to 9/7/54 on which date I was assigned to the Underground. I recognized the delinquency, however, this was one of many delinquent cases that I received on my assignment to the S-2 Squad in August, 1954. Some of the delinquent cases I had at that time were Key Figures. Since I was only on the squad approximately one month, I was only able to work out a limited number of the more important Key Figure cases.

SA BOLAN: SA BOLAN has been transferred to the New York Office.

SA [REDACTED]: I have read the above Inspector's comments regarding delayed investigation in this case and the fact that no apparent attempt was made to identify information received from Former [REDACTED] to the effect that [REDACTED] X was observed driving an automobile with Illinois license number [REDACTED]. I realize that the Chicago file does not reflect that this number was checked; however, I did secure the owner's name from the radio room which maintains the Illinois License Register. It was determined that the owner of the car was [REDACTED]. This information was furnished to [REDACTED] who is also an MCI informant employed as a [REDACTED] one who has checked numerous MCI

member's residences without being suspected. [] determined that [] did not reside at the [] address but rather resided at [] as is reflected in Serial 9.

Since having determined [] identity I was instructed by Supervisor FREYMAN to give this case preferred attention. I fully realize this is an investigative delay and will in the future make every effort to assure that it will not happen again.

In mitigation I can only say that since March, 1955, my supervisor's records reflect I have produced 657 pages; spent 82 per cent in April, 79 per cent in May, and 42 per cent in June of my time on special projects involving cases not assigned to me.

SA [] I have read the Inspector's comments on delayed investigation in this case. I recognize the delinquency in this case and have made every effort consistent with the condition of my other cases to correct it. In mitigation of this delinquency I submit the following:

Prior to April, 1955 I had no security experience and had only been in the field about eleven weeks. From April through 6/15/55, I had assigned to me a number of LYL cases with Budeds, and other LYL cases also in a delinquent status. From 4/15/55 to 8/22/55, I worked on prosecutive projects about sixteen days, on the Security Index Review Program about five days and have submitted at least ten SM reports on other delinquent cases.

With regard to this case I began work on it at least two weeks ago. I submitted a lead to New York by letter for background on 8/26/55 and have conducted some background investigation. A report will be written as soon as background is developed.

I might add that since June, 1955, I additionally made efforts and conducted investigation to develop PSI and Panel Sources. I have opened one PSI and two Panel Sources files as a result of this work.

b6

Supervisor FREYMAN: The Inspector's comments regarding delayed investigation and failure of the supervisor to take effective action during file reviews to remedy the situation have been read. The comments of SAS [] and [] have also been read.

My records reflect monthly discussion of this case with the agents concerned beginning in January, 1955. In March, 1955, I noted in the file that Agent []

should give "top" priority to this case. In June, July and August similar notations appeared in the file.

The remarks of the agents in mitigation of the delinquency are true. This squad as a whole has had project assignments of an expedite nature since January, 1955. SA [] despite this delinquency, and because of his experience, had to be placed on the Buded projects and work in the case in question was necessarily postponed.

As manpower became available to the squad, adjustments have been made in the case loads of SA [] and SA [].

The delinquency in this case will be immediately handled. Leads are presently outstanding.

ASAC SCHMIT: The Inspector's observations in this case regarding the delay in investigation as well as failure to take effective action during monthly file reviews have been noted. I have also noted the comments of Supervisor FREYMAN and SAS [] and []. With the assignment of additional personnel to Security Squad #2 approximately six weeks ago, I feel that we are in a position to remove delinquencies of this nature. I shall make every effort to hold delinquencies in security matter cases to an absolute minimum.

SAC HOSTETTER: I have noted the Inspector's comments as well as the observations set forth by the ASAC, Supervisor FREYMAN and the agents involved. Every effort will be made to hold delinquencies in security matters to a minimum and this case will be followed to be certain it is brought to a logical conclusion in the shortest possible time.

In addition four informant reports dated 3/12/55; 3/21/55; 3/29/55 and 4/4/55 have been placed in file with Agent's cover memo indicating that these were all received by SA [redacted] on 5/4/55, however, no channelizing memoranda have been prepared to date.

Extended delays of over three months will result in loss of timely information. Pertinent data should be available in individual case files without undue delay for purpose of periodic reporting under Security Index Program and use in organizational reports. Necessary steps should be taken to minimize the time elapsed between receipt of informant's reports and channelizing to appropriate files.

Since September, 1954 there have been ten instances wherein this informant was not personally contacted within a two week period as required. (M. of I., Section 107-G) These instances are as follows:

	Number of days between contacts
9/8/54 to 10/7/54	27 days
12/15/54 to 1/6/55	23 days
1/24/55 to 2/15/55	22 days

Sub A file reflects informant's reports are received by SA [] from informant from three to four weeks subsequent to the date of the report. This delay in receiving reports coupled with delay in preparing channelizing memoranda could seriously retard effective reporting on the activities of a number of important front groups in the Chicago area. SA []: I am cognizant of the delinquency and these matters have been discussed between my supervisor and myself during our regular case file review. I wish to state that at all times during the period in question I have attempted to fulfill the requirements of the Bureau to the best of my ability in regards to cases assigned to me. I am particularly aware of the Bureau's requirement of prompt receipt of information from informants as well as the prompt channelization of this information. I am also aware of the Bureau requirement of contacting informants on a two week basis.

Without attempting to excuse the delinquency, the following is submitted in mitigation of the items noted by the Inspector:

- (1) Extended delays in preparing channelizing memoranda based on informant's reports.

In explanation for delay of from three to six months in channelizing the eight informant reports, the following is submitted:

Upon receipt of reports from the informant I immediately read them and channelize and disseminate any important information requiring immediate handling.

During a large part of the period involved I was assigned five organizations, three of which Chicago is origin. The other two have had extensive activity in the Chicago area. In addition, I was assigned two informants, two sources, two key figures and three other IS-C cases.

In addition to the above work load, I completed extensive work on file reviews on Buded prosecutive letters as follows:

100-20627	Arts, Sciences and Professions	(10 days, Jan., 1955)
100-23491	American Peace Crusade	(10 days, Feb., 1955)
100-23918	American Vets for Peace	(3 days, June, 1955)
100-29124	Women's Committee for Equal Justice	(3 days, June, 1955)

In addition to the above projects, the writer was on special assignment for three days during January, 1955, on the CLAUDE M. LIGHTFOOT Smith Act trial. The writer was on complaint duty from 2/22/55 through 2/27/55 and participated in a special election fraud project during March for four days. The writer has also contributed to the SI program and Midwest Committee for Protection of Foreign Brown projects as well as taking part in fisurs. The writer attended In-Service from 5/23/55 to 6/3/55.

From December, 1954, through July, 1955, I have handled my regular work involving lengthy complicated organizational reports in addition to dictating two hundred and eighteen informant memos. According to records maintained by my supervisor, my total production in typewritten pages for this same period including approved reports, letters and memos, was seven hundred and fifty one pages.

I wish to point out that in my opinion my delinquency in reporting channelizing memos was in a large part due to project work set out above. I know that had these special projects not arisen the delinquency for which I am charged would not have occurred.

- (2) Failure to make personal contacts with informants each two weeks.

In explanation of this delinquency, it is pointed out that the informant has a full time job and in addition is one of the most active informants of this office in front groups. She regularly works evenings in the American Peace Crusade and Chicago Women for Peace offices; she attends meetings and distributes leaflets three to five nights a week in various sections of this city.

The difficulty of contacting her personally is therefore apparent. Frequently when contacts are arranged she telephonically cancels them because of meetings and other activities that come up.

I want to state, however, that I am in contact with this informant telephonically at least once or twice a week and any information that required urgent handling was furnished at that time. An example of this appears on serial A [redacted] wherein the Bureau was advised by airtel on 2/25/55 of information furnished by [redacted] on 2/25/55, concerning the Congress for World Peace held the latter part of May, 1955, at Helsinki, Finland.

b6
b7C
b7D

- (3) Undue delay between date of informant's report and receipt by the agent.

It is to be noted that [redacted] is a widow approaching sixty years of age. She resides in the [redacted] and on many occasions is required to travel to the "Loop" and northside areas to participate in front group activities. The distance involved to 166 West Washington Street, where most of her front group work takes place, is approximately ten miles. The informant has explained that her reports are submitted late inasmuch as she usually reaches her apartment shortly before midnight each evening and hardly has time to complete her notes before retiring. She also mentioned that she participates in activities

almost every day along with her regular employment. She added that she maintains her own apartment and on occasion must devote time to her children, grandchildren, and other relatives.

It is to be noted that [] has a sharp mind, good memory and her reports are detailed and accurate.

b7D

- (4) Delinquency not remedied by periodical case file review by supervisor with agent.

This matter was periodically discussed with me by my supervisor during case file reviews. The delinquency was increased by virtue of the projects described above. None of these projects could have been foreseen at any given time.

I shall make every effort to avoid such delinquencies in the future.

RELIEF SUPERVISOR []: The Inspector's comments and the weaknesses noted have been read by me. With regard to the fourth weakness that the delinquency was not remedied in approving channelizing memoranda, it is noted that SA [] has stated that this matter was discussed periodically with the Supervisor during case file reviews. I orally brought this delinquency to the attention of the Supervisor when I approved one channelizing memorandum in this case. The supervisor stated that he was aware of it, as was the agent, and efforts were being made to remedy the situation.

b6
b7C

SUPERVISOR FREYMAN: Comments of Inspector, delinquencies noted and explanation of SA [] have been read by me.

The delays in preparing channelizing memoranda based on informant's reports were discussed with SA [] in monthly case reviews with him. It should be noted that SA [] was assigned to several projects involving prosecutive letters despite a heavy case load because of a large turnover of experienced personnel on the squad during

the past six months. This case load has been reduced in recent weeks with the addition of more personnel to the squad.

In squad conferences and in monthly file reviews with agents I have stressed the necessity of either contacting informants once each two week period or advising the Bureau why this cannot be done in a particular case. Agents have also been told in conferences to instruct their informants to submit reports promptly and to call the office in matters of extreme importance.

Channelizing memoranda were approved because the delinquency had been called to SA [] attention in monthly file reviews and it was felt that if it had not been necessary to assign SA [] to special projects mentioned previously he would have promptly removed this delinquency.

b6
b7C

Necessary steps have been taken to minimize the time elapsed between the dates of informant reports and preparation of channelizing memoranda.

ASAC SCHMIT: The Inspector's comments have been noted. Security Squad 2, supervised by SA FREYMAN, without question has been carrying a heavy work load since 1/1/55. A number of experienced, high producing agents have been lost from the squad in the past six months due to transfers. Replacements were necessarily made with agents inexperienced in security work, thereby placing a heavy burden on the remaining agents. We are giving the first office agents training as promptly as possible, but it takes time to enable them to handle the more complicated type of investigative matter. Supervisor FREYMAN has spent long hours training these newer agents, as evidenced by his average daily voluntary overtime record of approximately 4'30" since 1/1/55. He supervises a large volume of major cases and uses his best judgment in requiring agents to give top priority to those matters in which the Bureau's internal security responsibilities are the greatest. There has been no intentional disregard of Bureau instructions as exemplified by the fact that Special Agents assigned to S-2 have a daily average voluntary overtime record of 2'18" during the past six months.

I have personally discussed at security agents conferences the necessity of prompt channelization of informants' reports as well as necessity of personally contacting informants at least once each two weeks. As soon as our overall security responsibilities permitted, approximately six weeks ago six additional agents were transferred to S-2 to alleviate the delinquency on this squad. I will make every effort to see that these delinquencies are removed as soon as possible and that there is no recurrence.

With respect to responsibility for these delinquencies, SA [] comments have been noted and while I feel they do not excuse a delinquency they should be considered in mitigation. His production has been high and he is a conscientious agent. His daily average voluntary overtime has been approximately 1¹/₄ hours in the past six months. I feel therefore that the primary responsibility in this matter rests with SA [] since with a little extra effort these memoranda could have been channelized promptly. I have discussed the matter with him and he recognizes his delinquencies and will remove them promptly. It is to be noted that he lives approximately 33 miles from the Chicago Office and spends 2¹/₂ hours each day commuting to and from the office. In addition, his wife has been ill for several months, which has required more of his time at home. Again, this is not an excuse, but should be considered as a mitigating factor. I feel that Relief Supervisor [] fully discharged his responsibility as reflected by his explanation. If there is any further responsibility in this matter I feel that it is mine since I made the decision regarding the placement of personnel where I felt they were needed most. This included the handling of many varied important projects such as the three months review of security index subjects, preparation of Smith Act prosecutive summary reports, penetration of CP, USA, Underground Operations, and reducing our overall security delinquency in all fields.

b6
b7c

SAC HOSTETTER: I recognize the importance of reducing delays in preparing channelizing memoranda to an absolute minimum, and additional personnel will be assigned to accomplish this objective.

FREYMAN is Supervisor of Security Squad #2 (Major Group Squad). All matters under his supervision are involved and complicated. I think he has the ability to recognize the important and that he has done a good job in handling first things first. FREYMAN on a number of occasions since 1-1-55 has indicated that he needed additional experienced personnel to handle the responsibilities on his squad. Additional personnel was assigned to him but some of these were transferred from Chicago before reporting to his squad and in other instances some of the men assigned to his squad were transferred from Chicago. Additional agents are needed on this squad at the present time and I will endeavor to remedy the situation as soon as possible consistent with the other responsibilities at Chicago.

FREYMAN is the hardest working employee assigned to the Chicago office. During my tenure as SAC his daily overtime has averaged about 4 hours and 30 minutes. His attitude is excellent and he is not lacking in ability or willingness to work.

The reports received by the informant subsequent to March 11, 1955, were promptly included in channelizing memoranda.

Delays in channelizing, extending from 3 to 7 months as above, could seriously retard effective reporting of investigative responsibilities in Chicago Division. Necessary steps should be taken, without delay, to minimize the time elapsing between receipt of informant's reports and preparation of channelizing memo.

EVALUATION: Excellent.

WEAKNESSES NOTED: (1) Extended delays in preparing channelizing memoranda based on informant's reports.

(2) Delinquency not remedied by periodic case review by Supervisor with Agent or in approving channelizing memoranda.

EXPLANATIONS DESIRED: SA [] for delay in preparing channelizing memoranda based on written reports submitted by the informant while the case was assigned to him.

SA [] for failure to take action after case assigned to him on 4/22/55.

From Relief Supervisors [], []
[] Supervisor FREYMAN as to reason for approving and handling of channelizing memoranda without taking corrective action.

Comments requested ASAC and SAC.
Supervisor [] has resigned.

SA []: This informant was assigned to me in the Fall of 1953 and reassigned to another agent 4/22/55. I fully realize the seriousness of the failure to report informant information promptly. I will in the future handle these matters in compliance with Bureau regulations.

b6
b7C

In mitigation of the above I wish to state as follows:

(1) That since 1/55 I worked on a number of projects with Bureau "without fail" deadlines and these deferred my channelizing memos which I would have dictated during this period. They included:

- (a) Working with Dept. Attorney [] conducting exhaustive interviews with potential witnesses, file and exhibit reviews, etc., in connection with the ISL SACB hearing.
- (b) Flsur work in March, 1955 in connection with appearance of top functionary in ISL in Chicago.
- (c) Assistance in two Smith Act Prosecutive Summary reports.
- (d) Two weeks on SI project review.

b6
b7C

(2) Expedite information such as the SWP National Convention was promptly handled and reported in an SWP report of 3/2/55.

(3) Records of my supervisor reflect that since 12/54 I have dictated [] and have submitted a total of 664 approved pages of work including reports. Additionally I have four reports dictated that will run in excess of sixty pages.

b7E

After discussion of the status of my case load, my supervisor reassigned this informant on 4/22/55. Had I not been engaged in the above projects, which neither I nor my supervisor could foresee from month to month, this delinquency would not have occurred.

b6
b7C

SA []: I had this informant assigned to me on 4/22/55, and subsequent reports submitted to me by this informant were promptly channelized. Channelizing of information and reports received prior to 4/22/55, were the

responsibility of SA [] as he had correlating explanatory information pertinent to these reports which prevented me from handling.

SA []: I have noted the Inspector's comments with regard to my approving five channelizing memoranda in June and July, 1955. I concur with the Inspector's observations that the dates of these channelizing memoranda reflect delays in dissemination of information received from the informant in report form. I orally discussed this situation with Supervisor FREYMAN, who stated that he was aware of the delinquency and that SA [] was making efforts to remedy this situation.

b6
b7C

SA []: The comments of the Inspector and the weaknesses noted have been read by me. With regard to the approving of three channelizing memoranda on 3/24/55, containing information received during November, 1954, I orally discussed this matter with Supervisor FREYMAN, who stated that he was aware of the situation as was SA [] and that efforts were being made to remedy this delinquency.

SA []: The Inspector's comments on the delinquencies noted have been read by me.

With regard to my approving two channelizing memoranda on 7/22/55, this delay in reporting was noted. This delay was orally discussed with Supervisor FREYMAN at that time, who advised me that this informant had been reassigned to alleviate this situation and the delinquencies were being noted.

b6
b7C

SUPERVISOR FREYMAN: The Inspector's comments on my handling of channelizing memos of this file have been read as well as the reply memo of SA []

I was assigned to work almost exclusively in the Smith Act trial of this District in December, 1954, and January, 1955. I was aware of the delinquencies and discussed

them with Agent [] beginning in February, 1955. The mitigating statements of SA [] are correct. After recognizing the heavy case load and delinquency of SA [] and as manpower became available, I removed further delinquency by reassigning the case on 4/22/55. The delinquencies ceased at that time.

b6
b7C
b7D

The stenographic situation that existed in this office from February to at least 6/15/55, to some degree was a contributing factor to the delinquencies charged in delayed reporting during that period.

ASAC SCHMIT: I have noted the Inspector's comments regarding the delay in preparation of channelizing memoranda in this case. It is noted that the extended delay in channelizing information received from [] was corrected through assignment of additional personnel to this squad.

This is an instance where Supervisor FREYMAN placed increased emphasis on other important matters assigned to his desk and necessarily some items had to be delayed because of the heavy volume to be handled in the form of important projects and Bureau deadlines in important cases. I feel that he used his best possible judgment and as soon as additional personnel became available they were assigned to the squad. I feel that this situation will not recur, and it is noted that in April, 1955, Supervisor FREYMAN took the necessary action to have this informant reassigned to another agent. Since that time there has been no delay in preparing the channelizing memoranda. I do not feel that the relief supervisors who approve the channelizing memoranda have a responsibility in this matter since they fully discussed the matter with the regular supervisor.

SAC HOSTETTER: I recognize the importance of reducing delays in preparing channelizing memoranda to an absolute minimum, and additional personnel will be assigned to accomplish this objective.

FREYMAN is Supervisor of Security Squad #2

(Major Group Squad). All matters under his supervision are involved and complicated. I think he has the ability to recognize the important and that he has done a good job in handling first things first. FREYMAN on a number of occasions since 1-1-55 has indicated that he needed additional experienced personnel to handle the responsibilities on his squad. Additional personnel was assigned to him but some of these were transferred from Chicago before reporting to his squad and in other instances some of the men assigned to his squad were transferred from Chicago. Additional agents are needed on this squad at the present time and I will endeavor to remedy the situation as soon as possible consistent with the other responsibilities at Chicago.

FREYMAN is the hardest working employee assigned to the Chicago office. During my tenure as SAC his daily overtime has averaged about 4 hours and 30 minutes. His attitude is excellent and he is not lacking in ability or willingness to work.

Necessary steps should be taken, without delay, to minimize time elapsing between time on informant's reports and preparation of channelizing memoranda.

EVALUATION: Very good.

WEAKNESSES NOTED: (1) Extended delays in preparing channelizing memoranda based on informant's written reports.

(2) Delinquency not remedied by periodic case review by supervisor with agent or in approving channelizing memoranda.

EXPLANATIONS DESIRES: SA [] SA [] SA [] Supervisor PREYMAN, ASAC and SAC. Supervisor [] has resigned.

SA []: I have noted the Inspector's comments. The case on this informant was assigned to me on 2/5/54 and re-assigned 4/7/55 to SA []. The Inspector's comments concerning extended delays in dictating informant reports have been read. It is recognized that such delays result in impeding effective reporting on SWP activities. Every effort will be made to handle these matters more expeditiously in the future so that the time elapsed between receipt of informant reports and dictation of channelizing memoranda will be minimized.

I desire to point out, however, that as these reports were received by me they were read and all matters requiring expedite attention were immediately handled. With respect to the recognized delinquency in this matter, the following is submitted as possible mitigating factors:

From February until approximately June, 1955, there was a heavy backlog of stenographic work in our stenographic pool. Other matters of a more expedite nature, such as Bureau deadlines, were dictated by me until such time as the stenographic situation was alleviated. During the period this delinquency existed I was assigned to numerous other matters which I considered of higher priority because of the great emphasis being placed on them by the Bureau, as well as instructions from my supervisor which required my immediate attention. These included assisting in the handling of the [] Smith Act trial, complete reverification of Detcom Security Index subjects, preparation of lengthy Security Index reports on SWP organizers, lengthy organization report on the Socialist Union of America, and in May, 1955, the preparation of a prosecutive summary Smith Act report on []. On 4/8/55 I dictated for approximately four hours on these reports in an effort to bring them up to date prior to my reporting for In-Service training 4/10/55.

b6
b7C

All of the informant reports in question, according to my notes, were dictated on 5/19, 24, 27/55 which was the earliest opportunity I had to handle these reports consistent with other expedite work, the over-all stenographic situation, and Bureau deadlines assigned to me during this period. Hereafter I will give preference to the dictation of informant memoranda in order to meet the requirements of the Bureau, and this delinquency will not occur again.

SA []: I have read the Inspector's comments. When I took over the assignment of this case on 4/7/55 I had just been reassigned to the S-2 Squad. Immediately thereafter I was assigned to the Security Index and Smith Act Summary projects and this continued until July 11, 1955. On assignment of this informant, I began immediate channelization of informant information received by me from the date of my assignment, and my dictation and transcription of this informant has since that time been within less than thirty days following receipt. SA [] retained the informant reports he had received prior to the date this case was reassigned to me.

b6
b7C

RELIEF SUPERVISOR []: I have noted the Inspector's comments and it is noted that on 6/17/55, while acting as Relief Supervisor, I initialed a channelizing memorandum for the file. I was fully aware of the delinquency in this matter and had orally discussed it with Supervisor FREYMAN. He stated that he was fully aware of it and that every effort was being made by SA [] to remove the delinquency as soon as possible.

SUPERVISOR []: The delinquencies pointed out by the Inspector have been read as well as the reply of SA []

b6
b7C

The delinquencies pertaining to delayed reporting of informant information were recognized by me and discussed with Agent [] at regular case file reviews.

All of these delinquencies occurred during a period of an acute shortage of stenos and at a time when heavy demands were placed on the squad as a whole on Buded matters including Prosecutive Summary letters on a large number of "front" organizations on this squad, and Smith Act reports. SA [] and most of the members of the squad with experience in these matters

b6
b7C

worked on these projects in addition to their regular work. The assignment of SA [] to these projects was consistent with manpower requirements of the squad as they then existed and were made despite a heavy case load carried by this agent.

On receipt of additional manpower, I took steps to correct this situation on 4/7/55 and reassigned the informant. Since June, 1955, informant memos have been submitted within three weeks to a month of receipt and the delinquency has been corrected.

The Agents' comments are correct.

b6
b7C
ASAC SCHMIDT: I have noted the comments of the Inspector as well as the answers furnished by agent personnel involved, including Supervisor FREYMAN. Recognizing the heavy case load of SA [] corrective steps were taken in April when SA [] was reassigned to Security Squad #2. It is noted that subsequent to that time the delinquencies in channelizing reports received from this informant have been removed. I feel that Supervisor FREYMAN has used his best judgment in requiring agents to handle the more important matters involving preparation of organizational reports, reports on Key Figures and top functionaries, and numerous other prosecutive summaries required by the Bureau. These items all have deadlines which must be met.

It is recognized that the agent personnel on Security Squad #2 has carried a heavy case load. Approximately six weeks ago, as soon as the personnel became available, consistent with their other security responsibilities, additional personnel was placed on the squad and I believe that this will remedy these delinquencies.

I do not feel that Relief Supervisor [] has a responsibility in this matter since he fully discussed the matter with his supervisor. With respect to SA [] he has handled an extremely high volume of work in a very capable manner. He has attempted to handle those items which he believed to be of highest priority. There is no question that he is extremely conscientious and the delinquencies in this case are definitely not the result of a lack of interest on his part in handling his assignments since the records will reflect that during the past six month period he has averaged between three and four and one-half hours per day of voluntary overtime. He willingly gives much of his personal time to assisting the less experienced agents on the squad in the proper preparation of security reports and thereafter takes much of his own personal time to handle the assignments which are assigned to him.

b6
b7C

If there is any further responsibility in this matter I feel it should be mine, but I did not feel that we could put additional agents on this squad until approximately July 1, consistent with our over-all responsibilities in security work and the delinquency which existed in other classifications. As noted above, this delinquency has now been removed and I will take the necessary action to see that there is no recurrence.

SAC HOSTETTER: I recognize the importance of promptly preparing channelizing memoranda. Additional personnel to accomplish this objective have been assigned.

FREYMAN is Supervisor of Security Squad #2, (Major Group Squad). All matters under his supervision are involved and complicated. I think he has the ability to recognize the important and that he has done a good job in handling first things first. FREYMAN on a number of occasions since 1/1/55 has indicated that he needed additional experienced personnel to handle the responsibilities on his squad. In order to remedy this situation, additional agents were assigned to security work and some of these were assigned to his squad. During the same period some of the experienced agents on his squad were transferred from Chicago and there was a period during the spring of this year when we experienced difficulty in increasing the total number of agents on his squad, even though we were constantly assigning additional agents to his squad. In some instances the agents being re-assigned were actually transferred from Chicago before they reported to S #2.

FREYMAN is the hardest working employee assigned to Chicago. During my tenure as SAC his daily overtime has averaged 4 hours and 30 minutes. His attitude is excellent and he is not lacking in ability or willingness to work.

Timeliness of information is lost by delays in channelizing extending from 3 to 5 months as above. Necessary steps should be taken without delay to minimize the time elapsing between receipt of informant's reports and preparation of channelizing memoranda.

WEAKNESSES NOTED: (1) Extending delays in preparing channelizing memoranda, based on informant's written reports.

(2) Delinquency not remedied by periodic case review by Supervisor with Agent or in approving channelizing memoranda.

EXPLANATIONS DESIRED: SA [Redacted] Relief Supervisors [Redacted] and [Redacted] Supervisor FREYMAN, ASAC and SAC. Supervisor [Redacted] has resigned.

b6
b7C

SA [Redacted] The Inspector's observation of the delayed channelization of information from this informant has been read. I am fully aware of this delinquency as well as the Bureau's instructions regarding prompt channelizing of informants' reports. I had discussions with my supervisor during regular case file reviews and he was aware of my delinquencies and instructed me to become current as soon as possible. At the same time I had discussions with my supervisor regarding the necessity for me as coordinator of the Panel Source Program, to increase coverage, to discuss with other agents concerning the handling of possible Panel Sources, and to assist in interviews in order to increase the overall Panel Source coverage. In March, 1955, this office had 15 Panel Sources. As of the date of the inspection the Chicago Office has a total of 47 Panel Sources either approved, in development or awaiting Bureau approval. I assisted in one form or another in the development of most of these Panel Sources. During the period the past delinquency in my informant

memoranda occurred, I wish to state these informant reports were thoroughly reviewed upon receipt and any matters of an expedite nature immediately handled.

While I fully recognize the undesirability of delays in preparing channelizing memoranda, the following is set forth in further possible mitigation of these delinquencies:

During January, 1955, I was assigned on special to the CLAUDE LIGHTFOOT Smith Act Case for eight days. During March, 1955, considerable time was spent in preparing the six months Panel Source letter to the Bureau. During April, 1955, a total of twenty days were spent on a special project involving preparation of prosecutive letters in the Rosenberg Case as well as the National Negro Labor Council.

It is recognized that all of the above projects and special assignments do not excuse this delinquency. However, within the past three months I have dictated approximately 100 channelizing memoranda. I shall make every effort to be certain that this delinquency will not occur again.

Relief Supervisor []: The Inspector's comments have been noted and I have been asked to explain why these delinquencies were not corrected in approving channelizing memoranda in the absence of the regular supervisor. It is noted that I approved two channelizing memoranda dated 8/11/55 and 8/17/55. At the time I approved these channelizing memos I discussed with Supervisor FREYMAN and he advised me he was aware of the previous delinquency in this case and that delinquency had now been removed.

Relief Supervisor []: I have noted the Inspector's comments and it is noted that I approved three channelizing memoranda prepared by SA [] while I acted in the capacity of relief supervisor in the absence of SA FREYMAN. These channelizing memos are all dated 6/23/55. Upon noting the length of time that had elapsed between the date the informant's report was received and the date of the channelizing memoranda, I brought this matter to the attention of Supervisor FREYMAN who stated that he was aware of same and that SA [] was removing these delinquencies as promptly as possible.

b6
b7C

Supervisor FREYMAN: I read the Inspector's comments regarding delinquency in failure to channelize information from this informant, and my failure to remedy the

situation through periodic case reviews. I have also noted the Special Agents' replies set forth above.

I was aware of these delinquencies and had periodic discussion with SA [] regarding the need for prompt channelization. The agent has of this date dictated the necessary memoranda to correct the delinquency and I will make every effort to see there is no recurrence.

b6
b7C

SA [] remarks in mitigation are true. Realizing the importance of the Panel Source Program and the lack of such coverage in this office as of March, 1955, as well as the potential of these people as future PSIs and SIs, I designated Agent [] as the office coordinating agent of the Panel Source Program. He was instructed to concentrate heavily in this field. The results are indicated above. In addition, one security informant resulted from increased emphasis on the Program and at least two PSIs have been developed.

This was a contributing factor to the delinquency in this case and it is recognized that SA [] delinquency in part was caused by my instructions to him. With the additional personnel which have been assigned to my squad, I have taken the necessary steps that these delinquencies do not recur.

ASAC SCHMIT: The comments of the Inspector regarding delinquencies in preparation of channelizing memoranda in this case as well as the comments of Supervisor FREYMAN and other agents involved have been noted. There is no question regarding the delinquency. It is to be noted that this is a case where excessive delays were caused by the placing of greater priority on other matters assigned to agents on S-2. I personally placed the increased emphasis on the Panel Source Program in March, 1955, and instructed SA FREYMAN to designate a coordinating agent. He designated SA [] and the results during the following four month period have been highly satisfactory. SA FREYMAN has continued to place emphasis on the special projects with Bureau deadlines in highly important cases awaiting prosecution which has resulted in a delay in other phases of the work assigned to the agents.

b6
b7C

Additional personnel have been assigned to the squad as soon as they became available approximately six weeks ago. This should correct these delinquencies so that they will not occur in the future. I shall closely follow the supervisory

personnel to be certain that the Bureau's instructions regarding the prompt preparation of channelizing memoranda are followed.

SAC HOSTETTER: I recognize the importance of promptly preparing channelizing memoranda. Additional personnel to accomplish this objective have been assigned.

FREYMAN is Supervisor of Security Squad #2 (Major Group Squad). All matters under his supervision are involved and complicated. I think he has the ability to recognize the important and that he has done a good job in handling first things first. FREYMAN on a number of occasions since 1-1-55 has indicated that he needed additional experienced personnel to handle the responsibilities on his squad. In order to remedy this situation, additional agents were assigned to security work and some of these were assigned to his squad. During the same period some of the experienced agents on his squad were transferred from Chicago and there was a period during the spring of this year when we experienced difficulty in increasing the total number of agents on his squad, even though we were constantly assigning additional agents to his squad. In some instances the agents being re-assigned were actually transferred from Chicago before they reported to S #2.

FREYMAN is the hardest working employee assigned to Chicago. During my tenure as SAC his daily overtime has averaged 4 hours and 30 minutes. His attitude is excellent and he is not lacking in ability or willingness to work.

Chicago Office
Personnel Matter

You will recall that prior to the recent inspection of the Chicago Office the SAC had recommended several supervisory changes involving the security squads in that office. Approval of these changes was held in abeyance until Inspector [redacted] could look into the supervisory situation during his inspection of the office. The Inspector checked into these matters in connection with the inspection and submitted his recommendations concerning several supervisory changes. Some of the Inspector's recommendations have already been approved and others were under consideration when a memorandum was received from the SAC, Chicago, dated 10-20-54, in which he recommended still further changes in the supervisory setup of the security squads. It should be noted that the Inspector had recommended that SA [redacted] be removed as Coordinating Security Supervisor and this action was approved. This created a supervisory vacancy on one of the squads and the SAC was instructed in Bureau letter 10-15-54 to recommend a replacement for SA [redacted]. The SAC's recommendation in this regard was set out in his letter of 10-20-54 along with several other changes recommended by him.

There is set out below a table showing the five security squads in the Chicago Division with the case loads on each, the present supervisor of each squad and the supervisory assignments recommended by the SAC for these squads in his letter of 10-20-54:

SQUAD	CASE LOAD as of 8-31-54	PRESENT SUPERVISOR	RECOMMENDED BY SAC AS SUPERVISOR
#3 (Coordinating Security Supervisor)	394	Vacant	Carl N. Freyman
#8 (Security-Major Groups)	287		
#9 (Espionage)	389		
#10 (Security-Community Divisions)	376		
#11 (Security-Industrial Divisions)	347	Carl N. Freyman	

It should be noted that there is only one full-time supervisor assigned to each of the above squads. The supervisory setup on these squads as recommended by the SAC has been discussed with Inspector [redacted] and he concurs in the SAC's recommendations.

All of the agents named above who have been recommended by the SAC have already been approved as full-time supervisors in the Chicago Office with the exception of SA [redacted].

Rebulet, 8-20-54, pertaining to my recommendation that SA [] be approved to serve as Supervisor, Security - Coordination in the Chicago Division, which requested that I discuss further with SA [] the fact that his availability is limited since he has offered to pay the expense of a transfer to certain localities.

b6
b7C

This matter has been thoroughly discussed with SA []. He states that he will accept any assignment which the Bureau may decide to give him and that he has found satisfaction in the administrative work in the Bureau which he has been performing. He states, however, that because of family and religious considerations, which prompted him to seek a transfer to certain Western offices, he does not consider that at this time he can withdraw his offer to pay for a transfer to one of the offices previously designated by him.

It is my opinion that SA [] is completely available to the Bureau for all practical purposes. I am certain that he will abide by the Bureau's decision in any matter involving his future work with the Bureau and that he will continue to work energetically for the benefit of the Bureau and will produce a large volume of quality work regardless of his assignment.

RE: SUPERVISORY ORGANIZATION
Chicago Division
Personnel Matter

SA [] entered on duty as an agent on April 14, 1947, and has served as an agent in Cleveland and Chicago. He is presently in GS-13 and is approved as a Bureau speaker and an Inspector's Aide. SA [] has been a supervisor in the Chicago office since March 23, 1953. He capably supervised the Security Matter-C squad from that time until February 26, 1954, at which time he became the supervisor of the Infiltration Squad in the Chicago Office. His work on the Infiltration Squad has been effective in every respect. Recently SA [] became the Supervisor of the Security - Major Groups Squad due to the re-organization of Security work in the Chicago office in accordance with Bureau regulations.

b6
b7C

SA [] presents a mature, neat appearance, has a pleasing personality, and is extremely enthusiastic, aggressive, industrious, and conscientious in his work. He is an excellent leader of agents, having the ability to cause agents to exert their best efforts in the work they are doing. He has been a good trainer of agents in connection with the supervisory work he has performed in this office and has the ability to cause agents to understand the Bureau rules and use these in the execution of their duties. He has clearly demonstrated administrative and executive ability and it is believed that he would be able to handle the duties of the supervisory position for which he is recommended in a manner which would bring satisfaction to himself and credit to the Chicago office and the Bureau. SA [] has definite possibilities for further advancement in Bureau work, is completely available and is interested in advancing in the Bureau.

SA [] entered on duty as an agent on March 1, 1948, and has served in the Baltimore, Buffalo and Chicago offices. He was approved as a Relief Supervisor by the Bureau on May 28, 1953. Since that time he has periodically had the opportunity to assist on the Infiltration Desk of the Chicago office and has thereby demonstrated his ability to handle administrative work. SA [] has also been a unit

coordinator in this office in connection with Communist Party underground activities. He has demonstrated leadership and has gained the confidence and admiration of the agents working in connection with underground activities. He is available for general or special assignment and is presently in GS-12.

SA [] presents an excellent appearance and has a pleasing personality. He is the type of person who always makes a good impression with persons not connected with the Bureau. He has a quick mind and is alert to properly handle matters which could, if mishandled, prove embarrassing to the Bureau. His attitude toward his work leaves nothing to be desired. It is considered that he would quickly adapt himself to full-time administrative work and that he would be a credit to this office and the Bureau as a supervisor. SA [] because of his mature judgment, fine personality, and thorough understanding of Bureau rules and regulations, is the type of person who gives promise of further advancement in the Bureau along administrative lines.

Personnel Matter

Reference is made to Bureau memorandum, dated August 10, 1954, in connection with Special Agent CARL E. FREYMAN, recommended by me to serve as Supervisor of Security Desk No. 11.

SA FREYMAN has frequently stated his preference for investigative work. However, I have presented to him the challenge to his ability offered by advancement to this supervisory position. He has accepted that challenge.

This agent has great ability as an investigator in Internal Security matters. Since he is willing to accept the problems and responsibility of a Supervisor, there are advantages to be gained in that he will be able to guide and supervise the work of agents and help to solve their problems because of his skill as an investigator.

I consider this agent capable of advancement along administrative lines. The position for which he has been recommended would permit a testing of such ability.

SYNOPSIS:

SAC, Chicago by letter and Forms FD-255 dated September 9, 1955, recommends appropriate cash awards for twenty Agents of the Chicago underground squad for outstanding investigation of the Communist Party (CP) underground since October, 1954. Referenced Chicago letter and forms recommending cash awards was prompted by Bureau letter to Chicago September 2, 1955, which pointed out the excellent quality of the CP underground quarterly report from Chicago dated August 15, 1955, and prepared by SA [redacted]. SAC, Chicago was requested to submit his observations as to commendation for personnel responsible for development of information contained in referenced report as well as for those who actually prepared the report itself. In addition to cash awards, SAC, Chicago recommended consideration for reallocation to GS-13 for SA [redacted] based on his outstanding performance in the handling of CG 5824-S. Recommendation was made for letter of commendation for Field Supervisor SA Carl N. Freyman, supervisor of the underground squad. Due to excellent leadership afforded underground squad and the highly productive and valuable results contributed to the investigations of the underground apparatus, it is recommended that letters of commendation be considered for SAC D. S. Hostetter and ASAC [redacted]. The efforts of the entire Chicago underground squad together with the leadership afforded by SAC and ASAC has contributed a major portion of our effective penetration of the CP underground on a national level.

(3) It is recommended that letters of commendation be forwarded to SAC Hostetter and ASAC Schmit for their excellent leadership and supervision of the underground squad.

(4) It is recommended that a letter of commendation be forwarded to Field Supervisor Carl N. Freyman for his direct supervision of the underground squad.

(5) See addendum on page 5.

DETAILS:

Bureau letter dated September 2, 1955, to Chicago noted that the Bureau desired to take this opportunity to note the excellence of the report of SA [redacted] dated August 15, 1955, entitled "CP, USA, Underground Operations, Chicago Division, IS-C," and the high quality of the information contained therein relating to the national underground apparatus of the CP and the midwestern regional apparatus of the CP underground. SAC, Chicago was requested to submit observations as to commendation for personnel responsible for the development of information contained in referenced report as well as for those who actually prepared the report itself. By letter and Forms FD-255 dated September 9, 1955, SAC, Chicago recommended appropriate cash awards for Special Agents [redacted]

Recommendation was also made for a letter of commendation to Field Supervisor Carl N. Freyman who supervises the underground squad. Referenced Chicago letter of September 9, 1955, pointed out that SA [redacted] had been recommended for reallocation to GS-13 based on his capable handling of CG 5824-S.

Memorandum for Mr. Belmont

SAC, Chicago in referenced letter of September 9, 1955, points out that the underground squad was established pursuant to Bureau instructions and following his arrival in the Chicago Division. Up to that time, the penetration of the CP underground by the office was highly unsatisfactory. It is pointed out that effective penetration of the national CP underground apparatus was the result of effective, careful planning and outstanding investigative work performed by personnel on the underground squad as a group effort over a substantial period of time which performance has involved the overcoming of unusual difficulties. SAC, Chicago notes that considerable personal inconveniences were experienced by the Agents comprising the underground squad and that during the ten month period this squad has averaged approximately two hours and twenty minutes voluntary overtime in order to get the job done. Substantial personal risks were involved in developing approximately 25 anonymous sources contacted on over 200 separate occasions. All were conducted without incident reflecting exceedingly good judgment in planning and execution of this unusual investigative technique. Many physical surveillances were conducted on key underground couriers leading to other underground functionaries. These were maintained with full security in view of the extreme security consciousness of subjects involved.

In addition SAC, Chicago states that the high-level information furnished by Chicago Confidential Informant CG 5824-S throughout this period was of considerable assistance in correlating their underground activities. He further noted that this informant is the source of considerable volume of information contained in referenced report of SA [redacted]

In regard to the handling of CG 5824-S, referenced Chicago letter states that the handling of the informant and his valuable contribution were undoubtedly responsible to a great extent for the success of Chicago's penetration of the underground. This informant is handled by SA [redacted] together with Field Supervisor Carl N. Freyman. SA [redacted] was recommended for reallocation to GS-13 in Chicago letter dated August 31, 1955.

b6

Memorandum for Mr. Belmont

Agents assigned to the underground squad are responsible for having successfully conducted twenty-five anonymous source contacts on two hundred separate occasions during the period of October, 1954 through August, 1955. In addition, as a result of intensive investigation they were able to effect the arrest of Claude Lightfoot, secretly indicted Smith Act subject. Among other individuals this squad was also responsible for locating and conducting anonymous source contacts on [redacted] in an underground status. [redacted] missing Smith Act subject, [redacted] old time Party member operating in the underground, [redacted] Smith Act subject in the underground apparatus, and [redacted] who led to the development of an anonymous source on [redacted] a national CP underground functionary. On one occasion notes located in the waistline of trousers worn by [redacted] [redacted] furnished Chicago with dates of future underground meets.

The underground squad was highly successful in maintaining discreet surveillances on underground subjects despite extreme security measures used by the Party. They were also successful in developing a confidential informant who later acted as a mail drop for underground functionaries. Data obtained therefrom was immediately photographed and acted upon promptly.

The redirection of CG-5824-S into matters more closely allied to the underground resulted in gaining valuable intelligence data on a national level on the CP underground apparatus. This informant's close relationship to Claude Lightfoot resulted in advance knowledge of the Party's contemplated streamlining of its underground; revealed the original structure of the underground consisting of [redacted] and [redacted] in charge of the Eastern Region, Claude Lightfoot and [redacted] in charge of the Midwestern Region and [redacted] and [redacted] in charge of the Western Region; determined that the Party was going to retain a "reserve" leadership in the underground and that the future underground apparatus would consist primarily of the so-called "refugee" apparatus. The refugee apparatus was further identified as the underground organization established to protect the Communist fugitives.

Memorandum for Mr. Belmont

The evaluation of the performance of all of the above-mentioned individuals by SAC, Chicago appears to be entirely proper and is such as to warrant recognition by cash awards. In addition it is felt that the direct supervision afforded by SA Carl N. Freyman together with the excellent leadership given to the underground squad by ASAC Schmit and SAC Hostetter is also deserving of consideration for letters of commendation.

ADDENDUM: (AHB:rmw 9/21/55)

In August and September, 1954, the Internal Security Section analyzed over-all Bureau progress in the penetration of the underground in the interest of accelerating coverage in this field and developing new approaches to the hunt for the Comfugs. It was noted that the Chicago Division had excellent live informant coverage but appeared to be affording only sporadic and intermittent efforts to the development of collateral and parallel sources in exploiting all known phases of Communist Party underground activity. Under the direction of Section Chief F. J. Baumgardner, Special Agents [redacted] and [redacted] made a thorough study of the Chicago situation and, by letter dated 9/10/54, instructed Chicago to re-evaluate and redirect its program, pointing out to that office in detail the weaknesses revealed in their study. This guidance stimulated Chicago to take immediate action, resulting in the outstanding sustained record of accomplishments described above. It is believed the parts Messrs. [redacted] and [redacted] played in this matter should be acknowledged now by commending these men.

MERITORIOUS AWARDS AND COMMENDATION

In attached memo from Mr. Baumgardner to Mr. Belmont 9-21-55 Domestic Intelligence Division (DID) concurred in the recommendations of SAC, Chicago, that 7 agents assigned to that office be afforded meritorious awards in the amount of \$150 each; 13 agents be afforded cash awards in the amount of \$50 each; that SA [redacted] be considered for a meritorious reallocation to Grade GS-13 and that Supervisor Carl N. Freyman, Chicago, be commended, all for their outstanding work and accomplishments in connection with the underground operations in the Chicago Division. DID further recommended that SAC Hostetter and ASAC Schmit, Chicago Office, and that SOG Supervisors F. J. Baumgardner, W. F. Doyle and J. J. Henry be commended for their excellent leadership and supervision of the underground operations in the Chicago Office. Since 10-15-54 the Underground Squad in Chicago has been successful in completely clarifying the underground picture and the organizational structure of the Communist Party (CP) underground in that area. Since that time 25 independent anonymous sources developed and contacted on over 200 separate occasions without incident. It was necessary to overcome many unusual obstacles and difficulties and employees involved performed their duties without thought for their own personal convenience. On the basis of the information submitted it is apparent those agents recommended for cash awards and SA [redacted] recommended for a meritorious reallocation have met the standard for the meritorious award pertaining to performance which has involved the overcoming of unusual difficulties.

SAs [redacted]
[redacted] and
[redacted] who have been recommended for awards of \$150 each participated in the supervision, development and contacting of the majority of the anonymous sources.

SAs A. J. Baumgartner. [redacted]

[redacted] recommended for awards of \$50 each primarily handled the physical surveillances connected with development and contacting anonymous sources. SA [redacted] recommended for meritorious reallocation to GS-13 has done outstanding job in handling CG 5824-S, a highly placed and important informant who has furnished considerable information regarding underground operations. Bureau records of employees satisfactory and no disciplinary action taken against them during past year with exception of SA [redacted] who was censured 5-9-55 for error in report he prepared.

b7C

SA [redacted] promoted as SA 9-20-48, GS-12, \$8000 (GS-12 since 5-10-53), Relief Supervisor, record satisfactory, no disciplinary action taken against him. Received meritorious increase in Grade GS-12 on 1-3-54 for developing 3 security informants. Commended 2-10-55 in connection with successful prosecution Claude Mack Lightfoot, Smith Act subject.

Inspector [redacted] recently completed inspection of Chicago Office, has advised that underground operations in Chicago have been highly effective and he feels cash awards are warranted. He is submitting write-up on SA [redacted] recommending that Administrative Division consider affording him reallocation to Grade GS-13, but no new facts beyond those in this memo.

RECOMMENDATIONS OF THE ADMINISTRATIVE DIVISION:

1. SAs [redacted] and [redacted] have met standard for meritorious award pertaining to services involving overcoming of unusual difficulties. Their services considered to be of broad application and moderate value to Bureau's work entitling them to award of from \$150 to \$300. It is therefore recommended that each of these agents be afforded a cash award in the amount of \$150.

3. SA [] eod as SA 9-20-48 and is not full-time supervisor. Therefore, he would not normally be favorably considered for reallocation to Grade GS-13 until on or after 9-20-58 when he will have completed 10 years as SA. Although his record has been very satisfactory and his work with confidential informant CG 5824-S is worthy of special recognition it is not felt that his record warrants his reallocation at this time as this would be accelerating his promotion to Grade GS-13 by approximately 3 years. DID recommended that in event it was not possible to afford SA [] the reallocation to Grade GS-13 at this time that he be afforded a cash award in the amount of \$150. SA [] has met standard for meritorious award pertaining to service involving overcoming of unusual difficulties and his services considered to be of broad application and moderate value to Bureau's work entitling him to an award of from \$150 to \$300. SA Freyman entered on duty as a Special Agent 2-2-42, was reallocated to Grade 12 on 7-28-46 and to Grade 13 on 3-2-52. He was designated Relief Supervisor 5-28-53 and has been Supervisor of the Security Squad since 10-22-54, prior to which he was Acting Supervisor for approximately four months. He is being considered for reallocation to GS-14 at this time.

He was afforded letters of COMMENDATION 1-6-48, 4-27-49, 11-5-54, and 10-5-55. On 8-3-52 he received a MERITORIOUS INCREASE to \$8560 in GS-13 in view of his outstanding and extremely important work performance in the field of national defense in developing highly confidential information. On 2-10-55 he received a CASH AWARD in the amount of \$150 in recognition of the outstanding calibre of his services in connection with the trial of Smith Act subject Claude Mack Lightfoot.

He was CENSURED 1-6-55 for delay in submitting a amended report, on 4-5-55 he was CENSURED inasmuch as he approved a report which included erroneous information, on 9-15-55 he was CENSURED inasmuch as he approved a report which set forth erroneous information, on 9-20-55 he was CENSURED inasmuch as he approved a report in which information in the synopsis did not agree with the information set forth in the details, and on 9-30-55 he was CENSURED for inadequacies disclosed in his performance as a Supervisor during the recent inspection of the Chicago Office.

On his 1955 Annual Performance Rating his SAC reflected this agent was available for general or special assignment. He had definitely established capability as an administrator. His desk was known as the Major Groups Desk, which included supervision of the basic revolutionary groups, front organizations, front group Key figures, CP key figures and top functionaries. In submitting his name in connection with the Bureau's Personnel Advancement Program, his SAC said in April, 1955, that this agent had the necessary drive, initiative and aggressiveness to operate capably in a supervisory capacity. He was a tremendous asset in his current position and was interested in administrative advancement and had demonstrated administrative ability.

67 DEC 22 1955

3 JRM/ma

Memorandum dated 7-28-55 reflected this agent's file was reviewed for the purpose of possibly considering his reallocation to Grade GS-14, however, he was passed over to be reconsidered at a later date inasmuch as it did not appear he was sufficiently outstanding at that time to warrant consideration.

b6

b7C

During the Inspection of the Chicago Office in August, 1955, Inspector [] stated this agent's overtime during 5-1 through 7-31-55 averaged 4 hours 20 minutes daily compared with the office average of 2 hours 4 minutes. He presented a mature, businesslike personal appearance, seemed alert and displayed a well above average knowledge of the security program. He advised he was desirous of advancing in the Bureau and was interested in performing supervisory, administrative and executive-type duties.

RECOMMENDATION: That he be passed over at this time for reallocation to Grade GS-14, in view of the three letters of Censure directed to him since he was last considered, and that he be reconsidered upon receipt of his 1956 annual performance report.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee CARL N. FREYMAN #13571

Title SPECIAL AGENT

Rating Period: from 4/1/55 to 12/20/55

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

ADJECTIVE RATING:

CARL N. FREYMAN #13571
SPECIAL AGENT
GRADE GS-13

This special Performance Rating is being submitted to reflect the progress of Special Agent Supervisor CARL N. FREYMAN since April 1, 1955. During this rating period he has been full-time supervisor of Security Squad #2 which is known as the major groups desk. He is responsible for the supervision of the basic revolutionary groups, front organizations, front group key figures, Communist Party key figures, top functionaries, Smith Act subjects, and related security informants covering these areas.

SA FREYMAN makes a fine personal appearance, has a pleasing personality and has demonstrated leadership qualities in directing personnel. He is in excellent physical condition, available for special and general assignment wherever his services may be needed, and I consider him capable of handling the Bureau's more complicated investigative matters. SA FREYMAN has demonstrated himself to be an excellent and thorough investigator, has an excellent knowledge of the Bureau's rules and regulations, and has given the necessary emphasis and direction to the Bureau's Security Informant Program. He is outstanding in his knowledge of the theories of Marxism-Leninism, is thoroughly versed in Communist ideology, and because of his excellent knowledge of the security picture in the Chicago area he is without question not only one of the best versed men in this office on security matters, but because of this intimate knowledge is able to take inexperienced agents under his supervision and rapidly develop them into good security agents.

He has demonstrated supervisory ability and plans his work well. SA FREYMAN is ideally equipped because of the above factors to handle his current assignment and he has a tremendous drive, enthusiasm and interest in the Bureau's work. In the past year he has averaged between 3½ hours and 5 hours voluntary overtime which demonstrates his keen interest in the Bureau's work as well as his desire to constantly improve procedures and investigative techniques.

During the rating period Supervisor FREYMAN was criticized by the Bureau in a letter dated April 5, 1955, for an error appearing in a report which he approved which report included erroneous information in the character of a copy of the report. By letter dated September 15, 1955, the

Bureau criticized him for approving a channelizing memorandum which contained an erroneous date as to when an informant furnished information to the Bureau. On September 20, 1955, a letter was directed to him because information contained in the synopsis of a report did not agree with the details. As a result of the Inspection of the Chicago Office a letter of censure was directed to SA FREYMAN dated September 30, 1955, concerning delays in preparation of channelizing memoranda by agents under his supervision. In connection with the errors in reports approved by SA FREYMAN, it is noted that there is a tremendous volume of lengthy, involved security reports covering organizations and individuals, which flow across his desk daily.

By letter dated October 5, 1955, the Director commended SA FREYMAN for the intelligent and effective guidance he furnished in the handling of a most valuable confidential source of information.

SA FREYMAN is regarded as the number 1 security supervisor and is in charge of all security operations in the absence of the ASAC. He has demonstrated supervisory ability and is interested in and capable of administrative advancement. He is entitled to a satisfactory rating.

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185. So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

CARL N. FREYMAN #13571
Special Agent
GS-14
EOD 2/2/42

PART I GENERAL COMMENTS

SA FREYMAN is a tall, well built individual, makes a very pleasant personal appearance, has a fine personality and dresses in excellent taste. He is full time supervisor of Security Squad #2 in the Chicago Office which is known as the major groups squad. Because of his outstanding performance during the past year, he was reallocated to Grade GS-14 effective January 1, 1956.

SA FREYMAN has under his supervision 28 Special Agents and supervises approximately 300 cases. These include the basic revolutionary groups, front organizations, front group and Communist Party key figures, top functionaries, Smith Act subjects and security informants covering these spheres of subversive activity. He has an outstanding knowledge of the theories of Marxism-Leninism as well as Communist ideologies and without question is the best versed agent in this office on these subjects. He has an intimate knowledge of the complete picture in the security field in the area covered by the Chicago Office. For that reason he is extremely well qualified to handle his current assignment and to direct the investigations of the agents working under him. He has demonstrated leadership ability, knows how to handle personnel, maintains high production of the men assigned to his squad and has considerable planning ability.

SA FREYMAN is in excellent physical condition, capable of handling the Bureau's more complicated investigative matters and can direct agents on raids or dangerous assignments. He has tremendous enthusiasm and interest in the Bureau's work and during the past year has averaged well over 3 hours per day voluntary overtime. Much of the work on his desk is complicated, requires careful thought and analysis to give proper direction to the agents and requires complete knowledge of rules and regulations. He has far above average organizational interest and has made a number of very worthwhile suggestions for improvement of the Bureau's work.

During July, 1955, SA FREYMAN was commended by the SAC for the excellent work performed by him in completing a review of the Security Index subjects in this office.

On October 5, 1955, the Director commended SA FREYMAN for the intelligent and effective guidance he

004

furnished in the handling of a most valuable confidential source of information.

On March 14, 1956, the Bureau advised that it was pleased with the steps taken by the Chicago Division to improve the overall effectiveness of security work. Supervisor FREYMAN was one of the individuals primarily responsible for making substantial contributions to this improvement.

This supervisor is an extremely valuable asset to the Bureau in his current assignment and is fully qualified to continue in his present capability.

PART II SPECIFIC COMMENTS

1. Justification for any Minus Ratings Given

Not applicable.

2. Experience and Ability as Inspector's Aide

Not applicable.

3. Participation in Informant Programs

SA FREYMAN is fully cognizant of the importance of the Bureau's security informant program. He has under his supervision at the present time approximately 75 security informant files. During the rating period the men under his supervision have performed some unusually fine work in the development of Panel Sources, PSIs and security informants. SA FREYMAN has personally developed a number of extremely valuable informants and because of his intimate knowledge of many security subjects he is uniquely equipped to give guidance and direction to the men on his squad. I would characterize his participation in this program during the past year as outstanding.

4. Testifying Experience and Ability

SA FREYMAN has testified on a number of occasions in the past in a capable manner.

5. Disciplinary Actions

Supervisor FREYMAN was criticized by the Bureau in a letter dated April 5, 1955, for an error appearing in a report which he approved which included erroneous information in the character of a copy of the report.

047

By letter dated September 15, 1955, the Bureau criticized him for approving a channelizing memorandum which contained an erroneous date as to when the informant furnished information to the Bureau.

On September 20, 1955, a letter of censure was directed to him because information contained in the synopsis of a report did not agree with the details.

As a result of the inspection of the Chicago Office a letter of censure was directed to SA FREYMAN dated September 30, 1955, concerning delays in preparation of channelizing memoranda by agents under his supervision.

All of the foregoing have been taken into consideration in connection with the annual performance rating and the check list. In this connection it is noted that a tremendous volume of lengthy, involved security reports covering both organizations and individuals, flow across his desk daily.

6. Accounting Information

Not applicable.

7. Police Instruction

Not applicable.

8. Sound Training

Not applicable.

9. Potentiality for and Interest in Administrative Advancement

SA FREYMAN is regarded as the Number 1 security supervisor in this office and is in charge of all security operations in the absence of the ASAC. He has definitely demonstrated supervisory and administrative ability and is interested in and capable of administrative advancement. I consider him to be one of the 2 most capable supervisors in this office, and because of my comments set forth above, he is an extremely valuable asset to the Bureau in his present capacity.

Re: United States of America

Dear Sir:

We are informed that the subject case, investigated by your office and prosecuted last year in this district, has been granted certiorari by the Supreme Court of the United States. Except for the final disposition of the matter after the decision of that high court, and subject to the bare possibility that the case would have to be re-tried, we may look back upon it as a completed matter in this office.

In view of these developments, we consider it not untimely now to comment to you on the superior handling of the investigative phase of this case by your office and all of your special agents assigned to the matter. My assistant, [redacted] has informed me fully of the excellent work of your Agents Carl Freyman, [redacted] and [redacted] their thoroughness, their alertness to every detail, their mastery of the facts, their high degree of integrity and honor, and their resourceful assistance from the moment the case reached our office until the last word was spoken on appeal. He recounts enthusiastically the many times during the course of the trial when Mr. Freyman and [redacted] together with a number of other Special Agents, worked all night to assist him in preparing his materials for the next day's sessions in court.

SPECIALIZED TRAINING

You have previously been furnished with the names of the agents in your office who are due for In-Service training in 1957. It is suggested that at this time you review the qualifications of these agents keeping in mind the needs of your office for additional agents qualified to handle defensive tactics training, firearms training and training in other such specialized fields so that you will be in a position to make your recommendations to the Bureau when the agents who appear to have the necessary qualifications to receive training as instructors in the various fields are scheduled to report for In-Service training. In making such recommendations you must, of course, submit full and complete justification as to the need for additional instructors in the various fields in your office.

In reviewing the qualifications and records of the agents due for In-Service training in 1957, you should keep in mind the Bureau's need for qualified Inspector's Aides. Those agents who appear qualified to receive Inspector's Aide training should only be scheduled for In-Service when an Inspector's Aide class would be held. You will be advised in advance when an Inspector's Aide class will be selected from a particular In-Service class. You should select agents for this training who are completely available, interested in and considered capable of advancement along administrative lines, capable of handling complicated investigative matters and above average in their grade with no weaknesses in paper work. In making your selections you should bear in mind any recent administrative action taken against the agent. In this regard carefully consider the nature of the dereliction as a recent censure per se would not necessarily preclude an agent from receiving this training.

COMMENDATION MATTER

Rebulet August 8, 1956, requesting my recommendations for commendation to the administrative and investigative personnel of this office for the successful penetration of Communist Party financial matters.

Our intensified investigation of CP, USA Funds has attained highly gratifying results. While considerable information is received from live security informants, this office has been principally successful because of the development of extremely valuable anonymous sources together with the careful and thorough analysis of the results obtained from these sources. The supervisory and investigative personnel principally responsible for the results obtained are as follows:

SA [] is primarily responsible for the analysis of anonymous source material and has done an outstanding job in the sifting of voluminous documents in order to present as accurate a picture as possible of the situation in this district. SA [] is responsible for the preparation of the CP quarterly report and in such capacity is responsible for analysis of funds material. SAs [] and [] are jointly responsible for the analysis of all financial transactions in this district. ADDENDUM

Domestic Intelligence Division August 17, 1956

The current information being furnished by Chicago concerning Communist Party funds reflects a comprehensive picture of the financial transactions and condition of the Communist Party in Chicago's territory.

COPY - 137

The data submitted by the Chicago Office in this regard reflects that a considerable amount of time and effort has gone into planning, obtaining, and intelligently analyzing the funds data. The Domestic Intelligence Division, therefore, concurs with the recommendations of SAC, Chicago.

In addition, it is recommended that a letter of commendation be forwarded to ASAC [redacted] who has over-all responsibility for security investigations in the Chicago Office and who has displayed excellent leadership in the investigation of the Communist Party. His past experience in investigations of Communist Party activities has effectively and consistently helped the Chicago Office to obtain extremely valuable intelligence data concerning Communist Party fund operations. It is believed that his leadership in this respect should receive recognition in the form of a letter of commendation.

b6
b7C

It is also felt that the full extent of Chicago's success in this matter is attributable in no small way to the ultimate decisions rendered by the SAC, especially where anonymous source contacts were developed. It is to the credit of SAC Donald Hostetter that his personnel is receiving consideration for commendation for effective security investigations. Only through the leadership and inspiration fostered by SAC Hostetter has Chicago continued to move aggressively and intelligently against the Communist Party. It is recommended that SAC Hostetter receive a letter of commendation for his excellent administration of Bureau responsibilities insofar as they affect investigations concerning the funds of the Communist Party.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
- + Outstanding (exceeding excellent and deserving of special commendation).
 - E Excellent.
 - ✓ Satisfactory (good or very good).
 - Unsatisfactory.
 - 0 No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

1. "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
2. "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - A. Any element rated "Unsatisfactory" must be supported by narrative comments.
 - B. An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

On May 17, 1957, SA Freyman was ordered to the Seat of Government as a replacement for a supervisor who was transferred to the field. He was to be assigned to the Subversive Control Section of the Domestic Intelligence Division. By memorandum dated May 21, 1957, the Chicago Division has requested the Bureau to cancel this transfer as SA Freyman is considered extremely valuable to the Chicago Office.

Chicago pointed out that the Communist Party is moving its headquarters from New York to Chicago and expects to complete the move sometime within the next year. The transfer of headquarters will materially increase the responsibilities of Chicago and SA Freyman is considered the most capable supervisor to handle this additional work. It was pointed out that all phases of the investigation of the National Office of the Communist Party would be handled by Security Squad #2 and SA Freyman was considered the best qualified for this important work. In addition, Chicago pointed out that SA Freyman helped develop one of the most important informants of the Chicago Office and although he is not currently operating the informant he lends considerable assistance in directing the activities of the informant. Chicago also advised that one of the other security supervisors could be assigned to SA Freyman's desk but none are considered as well qualified, nor do they have the knowledge and experience possessed by Freyman. The Domestic Intelligence Division analyzed this request and pointed out that it would be necessary to afford the Communist Party activity very close and careful supervision but made no recommendation concerning the cancellation of SA Freyman's transfer. Domestic Intelligence Division left it up to the discretion of the Administrative Division and the SAC, Chicago, as to whether there were other supervisors in Chicago capable of handling SA Freyman's work.

At the present time there are five other full-time security supervisors in the Chicago Office other than SA Freyman. According to the SAC they are progressing satisfactorily and there does not appear to be any good reason why one of these supervisors could not be moved into the spot occupied by SA Freyman. There are approximately 320 Agents assigned to the Chicago Office and it is certainly felt that a suitable replacement for SA Freyman is available from the complement of the Chicago Office.

Culkin, EOD December 18, 1950, GS-12, \$7570 per annum; appointed full-time supervisor November 2, 1956, and previously had five and one-half years of security work in the Chicago Office. [redacted] EOD December 9, 1946, GS-13, \$9420 per annum; appointed full-time supervisor August 22, 1956. He previously served as a full-time supervisor of security matters in the Philadelphia Office for a period of approximately two years. [redacted] EOD May 27, 1940, GS-13, \$9850 per annum; appointed full-time supervisor August 29, 1956; previously served as a relief supervisor of security matters for four years. [redacted] EOD March 1, 1948, GS-13, \$8990 per annum; appointed full-time supervisor November 10, 1955. Julian R. Walters, EOD November 18, 1946, GS-13, \$8990 per annum; appointed full-time supervisor November 16, 1954. All of these supervisors are currently rated excellent. The recent inspection at Chicago reflected that they were performing their supervisory duties in a satisfactory manner.

b6
b7C

In addition to the above, ASAC Schmit has over-all supervision of security matters at Chicago and the Domestic Intelligence Division considers Mr. Schmit one of the top security men in the service.

SA Freyman is a GS-14 supervisor and his file reflects that he is interested in and recommended for additional administrative advancement. He has advanced as far as he can in the Chicago Office and I am of the opinion that he should receive an assignment at the Seat of Government so that we can determine his potential for further advancement in the service.

RECOMMENDATION:

That the transfer of SA Freyman stand and the SAC at Chicago be advised to expedite the transfer as the services of SA Freyman are urgently needed in the Domestic Intelligence Division.

SUBJECT: SUPERVISORY ORGANIZATION
CHICAGO DIVISIONSA CARL N. FREYMAN
FIELD SUPERVISOR*W. Clayton*

The attached letter from Chicago dated 5/21/57 requests that Bureau reconsider transfer of Supervisor Freyman from Chicago to the Seat of Government as it would be in the best interests of the Bureau to have Freyman remain in his present capacity. Freyman is considered by the SAC, Chicago, to be his No. 1 Security Supervisor concerning the investigation of the CPUSA.

At its national convention held February 9-12, 1957, in New York City, the CPUSA voted to move its headquarters to Chicago. Information received indicates this move is to take place in installments over an approximate period of one year. The transfer of these headquarters to Chicago will greatly increase the responsibilities of our Chicago Office. It is imperative that our work there be competently supervised by an experienced Agent who is intimately familiar with the CP leaders and organization, both nationally and in the Chicago area. This transfer of headquarters will probably offer the Bureau opportunities for invaluable technical coverage of national CP activities. The need for assistance of local Party members at the new headquarters should present us with additional opportunities for coverage. Also, the value of CG 5824, who is already a top-level informant, should be considerably increased with this transfer. With forceful and intelligent supervision of the Security Squad in Chicago, this move of the CP headquarters can be made to work to the Bureau's advantage and we can continue to obtain high-level information regarding the activities of the CPUSA. Information received concerning CP activities in Illinois indicates the investigation of the CPUSA by our Chicago Office has been receiving excellent supervision. In the event the Party does go through with its plans to move its national headquarters to Chicago, it obviously follows that CP activity in this area will increase and will require careful and close supervision.

RECOMMENDATION:

That the above information be furnished to the Administrative Division to point out the need for continued strong supervision of security matters in the Chicago Office. The question of whether Chicago has other supervisors in addition to SA Freyman who are capable of giving strong supervision to communist matters is one to be decided by the SAC and the Administrative Division.

REQUEST FOR
CANCELLATION OF TRANSFER

SA Freyman, Supervisor of Security Squad #2 in Chicago Office, was ordered under transfer to the Seat of Government on 5/17/57. By letter 6/7/57, transmitted by SAC, he requested transfer be canceled because of personal problem involving his mother and recent expenses which have financially affected him.

On 5/21/57 SAC, Chicago recommended SA Freyman's transfer be canceled as his services were needed in Chicago Office. On 6/4/57 SAC, Chicago was advised transfer would stand as it would be to Bureau's best interest for SA Freyman to be assigned at the Seat of Government.

SAC, Chicago in his letter of 6/7/57, transmitting SA Freyman's request, stated he was convinced SA Freyman was confronted with a real personal hardship which he considered temporary, and he recommended his transfer be canceled. He added he seldom recommended cancellation of a transfer of an employee under his supervision but that in his opinion there was ample justification for cancellation of his transfer and that it would be to the best interests of the Bureau to favorably consider his request.

SA Freyman in his letter stated he was most appreciative of transfer because he considered it as an advancement which he had looked forward to for sixteen years. However, the death of his father fifteen months ago had left him, an only child, with responsibility for his mother, age 69, who lives in Lemars, Iowa, approximately 525 miles from Chicago. He had been unable to persuade her to live with him, but has been able to visit her several times a year. She had a second cancer operation eighteen months ago which resulted in removal of her second breast. She is undergoing a check up this week and although the doctor states her condition is as good as can be expected, he cannot foresee what new tests will show in view of her past history. SA Freyman stated since he would continue to be financially responsible for care of his mother, other personal problems which had arisen during the past 2½ years became material. A serious operation on his wife and birth of his third and fourth children required medical expenses in excess of \$3,000. Considerable additional expense was also incurred

3- a/h

when it was necessary to place his wife's mother in mental institution 1½ years ago. Further, because of increased size of his family, it was necessary to purchase a home in November, 1955, which required stringent financial commitments.

After lengthy consideration of consequences of his decision in reference to administrative advancement, he reached conclusion that he could not, at this time, meet requirements for administrative advancement for financial reasons and until his family situation resolved itself. Because of above reasons, he stated it was with extreme reluctance and deep regret that he was unable to accept this promotional opportunity for advancement and he respectfully requested transfer be canceled. He added that when he accepted his supervisory position approximately three years ago, none of the afore-mentioned instances existed. He accepted his responsibilities with full knowledge of the requirements for advancement and he had unselfishly given his time and efforts towards advancement. These years had been his most satisfying years in his career. As a career employee, he would always be anxious to advance and he hoped his problems, particularly with respect to his mother, would resolve themselves in the immediate future. He further added he would fully understand any action which might be taken as a result of his request to remain in Chicago at the present time.

SA Freyman's personnel file reflects he is age 41, married, with four children. He has served in Newark and New York and has been in Chicago since 2/16/45. He was designated as a supervisor on 11/1/54. Since then, he has been censured on ~~four~~ ^{five} occasions, the last being 9/30/55 when he was censured for one instance of delayed investigation, delays in channelizing data received from informants, and high percentage of form errors in cases under his supervision. ^{detected during inspection.} He has been commended on five occasions, ^{during same period} the last being 5/22/57 for fine manner in which he supervised coverage of Communist party. On 2/10/55 he was awarded cash award of \$150 for his outstanding services in connection with trial of Smith Act subject Claude Mack Lightfoot.

RECOMMENDATIONS:

1. That SA Freyman's transfer be canceled and that he be so advised.

2. That SA Freyman be removed from supervisory duties.

3. That he be demoted from grade GS 14 to grade GS 13.

Rebulet to SA FREYMAN June 20, 1957, copy to SAC Chicago, requesting advice in six months as to any change in the availability status of SA FREYMAN.

This matter has been discussed with SA FREYMAN and he states that his financial situation has not materially changed during the past six months. From a financial viewpoint he has had additional medical expenses and the caring for his mother at a separate residence continues to be an additional financial burden. He has an excellent attitude in handling the tremendous burdens of the supervisory desk on which he is functioning inspite of his reduction in grade from GS 14 to GS 13.

I will continue to closely follow the availability status of SA FREYMAN during the next six month period and the Bureau will be kept advised of any change.

Dear Sir.

The affidavits include four from employees of the Chicago Office; namely, Special Agent in Charge Richard D. Auerbach, Assistant Special Agent in Charge Joseph L. Schmit, Special Agent Carl N. Freyman and Special Agent [redacted]. These affidavits pertain to the incident in which [redacted] became involved which led to his dismissal.

b6
b7C

Rev The interview September 27, 1957, with [redacted] is described in Mr. Auerbach's affidavit and is mentioned also in the affidavits of Messrs. Tolson, Nichols, Boardman, Belmont, Mohr, and Parsons. [redacted] Schmit and Freyman who were present. [redacted] said he was "forced to keep book" to prove a point to his supervisor, Special Agent Freyman. He refused to explain what the point was that he wanted to prove. As to why he

WEC:mfs:pmd (5) Based on memo Edwards to Mohr 12/30/57 W/37

Director
Seventh U. S. Civil Service Region

felt he had to make a point with his supervisor, [] said that Special Agent Freyman was biased against him but [] was unable to adequately justify this opinion. Asked to state what a certain word was that had been crossed out in one of the calendar notations [] declined to do so. He admitted preparing the calendar notations but shortly afterward denied so stating. Though given abundant opportunity to explain the entire situation, he refused to cooperate.

b6
b7C

Our Washington headquarters was informed by Mr. Auerbach and on October 1, 1957, instructed him to secure [] written explanation of the matter. In a signed statement [] replied on October 1, 1957, that the information to the effect that he had been keeping records was simply Mr. Schmit's opinion and there was nothing to substantiate such opinion; that this was all he had to say.

Mr. Auerbach told [] his written explanation was not responsive and that there was substantiation in the physical existence of the written notations and their close similarity with official records of Special Agent [] arrivals and departures. At this, [] merely shook his head and stated that the written explanation prepared by him reflected all he had to say. However, he did assert that Mr. Auerbach's memorandum of September 27, 1957, reporting the interview of that date was not accurate despite the fact that he had been present when it was dictated, had reviewed it then, and had said it was accurate as to the conversation. [] alleged two inaccuracies: (1) He did not say he was 'forced to keep book' or 'kept book as a matter of necessity'; instead what he said was that he was forced to keep records as a matter of necessity'; (2) He did not say he prepared the written notations and then a moment later deny it; he claimed such statement was inaccurate and that he, [] was 'confused.'

b6
b7C

At that time, October 1, 1957, Mr. Auerbach gave [] further opportunity to explain or to admit he prepared the written notations but [] would not do so. His obstinacy in the matter forced the Bureau to go to the length of conducting a handwriting examination of the written notations in its Laboratory at Washington, D. C. The conclusion was that [] wrote the notations. This is the subject matter of the attached affidavit of Special Agent [] the handwriting expert who made the examination.

Director
Seventh U. S. Civil Service Region

b6
b7C

By letter to [] October 10, 1957, delivered to him at 3:40 p.m. October 11, 1957, the Bureau advised him his dismissal was contemplated for reasons set out in detail but herein abbreviated as follows: A. Unsuitability for the Special Agent position as evidenced by his insubordinate and evasive conduct during the calendar notation inquiry; B. His inconsistent statements and unreasonable attitude; C. His inadequate statement of October 1, 1957, showing obstinate and insubordinate attitude; D. His reckless allegations of bias on the part of Special Agent Freyman. [] was advised of his right to answer and that he was suspended without pay for thirty days; this suspension began at the close of business October 11, 1957.

Your office later questioned our procedure in suspending him without at least 24 hours' advance written notice with a statement of reasons and opportunity to reply, and in suspending him at all. My memorandum to the Seventh Regional Office dated November 29, 1957, explained this Bureau's action and stressed the fact that Mr. Dalton had lost his usefulness as a Special Agent, having by his insubordinate refusal to explain his conduct forfeited our trust and confidence.

On October 14, 1957, [] submitted an answer to the proposed dismissal. He denied having said he was forced to keep book or kept book as a matter of necessity. He denied having ever acknowledged the accuracy of Mr. Auerbach's memorandum reporting the interview of September 27, 1957, and said Mr. Auerbach did not delete misquotes from the memorandum. He recounted certain difficulties he had had with Special Agent Freyman and said Mr. Freyman once stated a personality clash probably existed between them. He cited an improvement in the amount of overtime he had worked (a matter discussed during the interview September 27, 1957). He characterized the charges against him as unfair and unjust.

b6
b7C

Mr. Auerbach told [] after reviewing [] answer that he did not feel it was complete. [] said that he had nothing further to say.

Mr. Auerbach, in his affidavit, controverts [] denial regarding the "forced to keep book" comment. Mr. Auerbach terms as a falsehood the denial of [] that the latter ever acknowledged the accuracy of the memorandum of September 27, 1957. Mr. Auerbach explains he made

Director
Seventh U. S. Civil Service Region

certain changes in the memorandum at the time as requested by [redacted] but did not delete the misquotes because [redacted] did not claim to have been misquoted when he originally reviewed the memorandum after its preparation September 27, 1957.

Mr. Schmit and Mr. Freyman, in their affidavits, concur with Mr. Auerbach's version of the interview of September 27, 1957. Mr. Freyman, in addition, denies any bias; points out he has never before been accused of bias by anyone other than [redacted] mentions he reminded [redacted] the latter could secure a transfer to a different supervisor if he thought Mr. Freyman was biased; and denies stating there was a personality clash involving [redacted]

It may be noted that [redacted] still has not clearly acknowledged that he was the author of the notations appearing on the calendar and he persistently declined to give a reasonable explanation for the notations even though he was given every opportunity and encouragement to do so. Our discovery of the calendar notations was a matter of deep concern and it was [redacted] responsibility as a Special Agent of the FBI to furnish a complete explanation for his action. His failure to do so, particularly after he had been advised that his explanation was desired by Bureau headquarters, amounts to insubordination. An insubordinate Special Agent is valueless; moreover, he is a serious risk and handicap to this Bureau's efficient discharge of its grave responsibilities, not only because of the wide latitude and considerable degree of independence of action inherent in a Special Agent's duties, but equally because of his ready access to confidential information.

Should your office desire any additional information to assist in a determination of this case, I shall be pleased to supply same on request.

Very truly yours,

John P. Mohr

There is attached hereto a memorandum reflecting a situation involving the above captioned agent.

It appears to me that [REDACTED], who is a veteran, has shown some general signs of promise in his six years with the Bureau, and is worth saving. Accordingly, I recommend that he be transferred to another field office under a strict SAC, and put on probation due to a poor attitude for the standards of a Bureau Agent.

There is no question whatsoever that Supervisor CARL N. FREYMAN is one of the better supervisors and is well known to be an excellent administrator without any bias whatsoever. It is obvious he couldn't have had much bias since the file reflects he has spent time with [REDACTED] worked things out to help him, and recommended him for reallocation.

The poor attitude of SA [REDACTED] is quite obvious in his discussion with me as reflected by the attached memorandum. There are a number of agents who have had similar personal problems and yet do their fair share of work. However, separately from that phase of it, the close coordination of daily efforts of the agents together in their necessity for mutual trust and reliance on each other is to my mind one of the most important factors of Bureau employment, and it is quite obvious that an individual who endeavors to "keep book" is not of the standard or realization thereof or inspires any confidence. I must note in this connection that an inquiry of the ASAC and the Supervisor indicates that the agent on whom [REDACTED] was endeavoring to check is a most conscientious hard-working agent, of an excellent standard. A review of his work and efforts reflects him to be a much above average agent.

SPECIAL AGENT - CHICAGO DIVISION

The above captioned Special Agent, with EOD of 2-19-51, in GS-12 since 11-18-56, and at Chicago since March, 1952, as his second office, is assigned to Security Squad #2 under Supervisor CARL N. FREYMAN.

During a routine check in the Chicago Office the evening of Thursday, September 26, 1957, a usual calendar provided by the Bureau reflected an odd comment as the desk was checked by ASAC JOSEPH L. SCHMIT. The calendar showed [REDACTED] arrived 8:20". This was an unusual note so other pages of the open calendar were examined and there were a number of comments reflecting notations of the time of arrival and departure of [REDACTED]. Mr. SCHMIT recognized that JC might be the initials of Special Agent [REDACTED] functioning on the same squad, and immediately the thought that Agent [REDACTED] was "keeping book" on [REDACTED] came to mind.

b6
b7C

There were 12 such notations alone during the month of September, 1957, which Mr. SCHMIT checked with the #3 cards of [REDACTED] and found that the cards of [REDACTED] were accurate to a point where over the period of the 11 notations on [REDACTED] memorandum, the difference was a total of 17 minutes for the in and out notations which had been kept between the notes of [REDACTED] and the official record of [REDACTED]. Further, it became obvious that this was what was going on because of a notation made on September 12, [REDACTED] late (unknown word) allowed to sign in on time (hearsay)". As to this particular situation, a review of the official record reflects [REDACTED] comments were not accurate at all on the situation.

b6
b7C

[REDACTED] is present as I dictate this situation and, when asked to decode his own note of the one unknown word shown above, stated, "I would rather not say".

In view of this situation I have checked the overtime of [] for the last 12 months alone and it is set forth below reflecting a very poor record as to carrying his share of the workload either as to the squad or office average. It is not being further commented on since it is self-explanatory:

I reviewed [] file and find that during the past two years he has been censured twice by the Director for inadequate handling of information secured from security informants in a procedure known as channelizing; has been

talked to a number of times as to his failure to carry his share of the workload in overtime and has explained them beginning two years ago due to his wife's personal situation in connection with a pregnancy and the subsequent illness of his son in the beginning months of his life. These requests for explanation were necessary not only as to general sharing of the workload but because of the thin edge which this agent had as to the required amount of overtime to qualify for fringe benefits.

The record also reflects that in his performance ratings there has been a need for greater enthusiasm by [REDACTED]

With this data I have had [REDACTED] fully interviewed by me in the presence of the ASAC and his supervisor. In connection with the "keeping book", when asked for an explanation [REDACTED] stated that he was "forced to keep book" and again "kept book as a matter of necessity". He was asked to explain these statements and first stated that he had done it to prove a point to his supervisor and when asked to explain that stated that he would rather not explain, which wound up with the fact that "he would not discuss it".

b6
b7C

There were several points of conversation back and forth reflecting that [REDACTED] feels that there has been bias on the part of the supervisor and yet is unable to explain what the bias is in view of the record which reflects he was recommended for a grade raise to GS-12 on 11-1-56. He used as additional comments the fact that he has been unhappy in this situation and has talked to the ASAC concerning it and noted that his supervisor was critical of his failure to produce security informants and his second failure to handle channelizing information. This was discussed with him by the ASAC and it appears to me done correctly in every possible respect. [REDACTED] feels that his supervisor has shown bias by being "super-critical" and "watching everything I did". However, in the several conversations he had with his supervisor and the ASAC previously and intermittently spread over the two year period, he advises he has been aware that he knew he could come to the administration of the office for change of squad.

RE: [REDACTED]

SA

He said, however, that since he had changed his office of preference to New York that he had felt this would handle the situation and he was satisfied to stay where he was because he felt that he would be momentarily moved to that office of preference for himself.

Today's interview, in my opinion, has been a very unsatisfactory situation with [REDACTED]. He has stated that he would not discuss the "keeping of book" with me even alone. He states he has not any other records concerning the situation and he has absolutely nothing else to be brought to the attention of the Bureau and, in fact, states he has nothing more to say whatsoever "right now".

b6
b7C

The Bureau is advised that I am immediately changing [REDACTED] from functioning with the security squad to a new supervisor, pending action by the Bureau. [REDACTED] has reviewed the above, and states it is accurate as to our conversation. He also now states that he did prepare the calendar,--then again, a moment later, denied that and still will not discuss it.

On the evening of 9/27/57, ASAC Schmit, Chicago, discovered 12 handwritten notations on a desk-type calendar maintained by SA [REDACTED] which related to arrival and departure times of an individual identified by the initials [REDACTED]. Similarities were detected between the calendar notations and certain entries appearing on #3 Cards prepared by SA [REDACTED], who was assigned to the same Security Squad in the Chicago Office as SA [REDACTED] and there follows a tabulation of the calendar notations and pertinent entries prepared by SA [REDACTED]:

Photostats of the calendar notations were forwarded to the Bureau and based upon a comparison of the Photostats with known handwriting in the personnel file of SA [] the Laboratory concluded that the calendar notations were prepared by SA []. During interview, SA [] was evasive and insubordinate. He would not furnish clarification for the unknown word or initials appearing on the 9/12/57 calendar notation and, in fact, he would not definitely acknowledge that he had prepared the notations. Also, during the interview SA [] alleged that his immediate supervisor, SA Carl N. Freyman, was "supercritical" and bias but he furnished no justification for these charges. The Bureau instructed that a signed statement be obtained from SA [] and in this statement dated 10/1/57 he declared that the allegation reflecting that he had maintained a record on SA [] is an opinion of ASAC Schmit. SA [] declared further that there is nothing to substantiate this opinion and that he had nothing else to say. By letter of 10/10/57 SA [] who is a veteran was suspended without pay for 30 days and he was afforded the advanced written notice prescribed by the Veterans' Preference Act to the effect that the Bureau proposed to dismiss him from its service. On 10/14/57, SAC Auerbach forwarded a memorandum from SA [] in answer to the charges pending against him. This is being handled separately. On 10/10/57 SAC, Auerbach was instructed to obtain an explanation in writing from SA [].

In a memorandum of 10/14/57 directed to the SAC, SA [] advised that he has absolutely no information as to why SA [] was apparently recording the times of his arrivals and departures at the Chicago Office. SA [] observed that he and SA [] were assigned to the same Security Squad but that SA [] handled work entirely different from that handled by SA []. In addition, it was pointed out by SA [] that his interests differed from those of SA [] and although there were no specific differences between the two agents, they did not closely associate with each other.

SA [] advised further that he is completely unable to understand the reason for the calendar notation of 9/12/57. He stated that at no time during his Bureau career was he ever permitted to sign in on time when he was tardy. He also said that he has always accurately reported on official Bureau registers the times at which he arrived and departed from the office. b6
b7C

SAC Auerbach advised that during the interview SA [] was completely forthright. The SAC observed that SA [] was unable to specifically recall the circumstances surrounding his arrival at the office on 9/12/57. SA [] informed the SAC that if his #3 Card reflected that he arrived at 7:55 p. m., this would be the accurate time of his arrival. SAC Auerbach pointed out also that SA [] is a most conscientious and sincere agent and the SAC recommended that no administrative action be taken against him.

OBSERVATIONS AND RECOMMENDATION OF THE ADMINISTRATIVE DIVISION:

No allegations against SA [] have been made and on the basis of information now available it cannot be determined that he has ever inaccurately recorded the time of his arrival or departure at the Chicago Office. Accordingly, it is recommended:

1. That no administrative action against him be taken.
